EDUCATION

"Mephisto"

This bit was especially designed for Electricians to meet their demands for a bit that feeds rapidly; bores clear through any wood and leaves a smooth hole.

STAMPED WITH THE UNION LABEL.

Write us direct if you want to know more about this Bit.

THE W. A. IVES MFG. CO.,
Wallingford, Connecticut.

Blake Compressed Cleats

Pat. July 1906

Convenient to carry and to use. Will not collect dust and dirt nor get on tools in kit. You can get the soldering flux just where you want it and in just the desired quantity.

BLAKE
Signal & Mfg. Co.
251 Causeway St.
BOSTON - MASS.

BLAKE TUBE FLUX

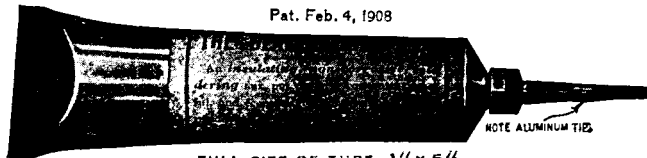

Blake Insulated Staples

4 Sizes

Pat. Nov 1900.

Pat. Feb. 4, 1908

FULL SIZE OF TUBE, 1" x 5"

NOTE ALUMINUM TIES

Named shoes are frequently made in
non-union factories

DO NOT BUY ANY SHOE

No matter what its name, unless it bears a plain and
readable impression of the **UNION STAMP**

All shoes without the **UNION STAMP** are always Non-Union
Do not accept any excuse for absence of the **UNION STAMP**

IN MEMORIAM

BROTHER PAUL FRAPANI.

Whereas, It has pleased our Heavenly Father to call from our ranks our worthy Brother Paul Frapani who was killed on May 9, 1918 by 2500 volts whilst in the performance of his duties.

Resolved, That the members of Local Union No. 4, I. B. E. W. tender their sincere and heartfelt sympathy to his bereaved widow and children; and be it further

Resolved, That our charter be draped in mourning for a period of thirty days; and be it further

Resolved, That a copy of these resolutions be spread on our minutes, one to be forwarded to his widow and children, and one to be sent on to our International Office for publication in our Official Journal.

May his soul rest in peace.

John H. McLin,
Ed. M. Smith,
Geo. Lorricks,
Committee.

BROTHER VICTOR H. MEDLEY.

Whereas, It has pleased our Heavenly Father to call from our midst, our esteemed fellow worker and patriot, Brother Victor H. Medley; and

Whereas, We recognize that in his untimely taking away, Local Union No. 6 has lost a faithful member and our country a loyal citizen who was ready and answered the country's call when needed; therefore be it

Resolved, By Local Union No. 6 of the International Brotherhood of Electrical Workers in regular session assembled, that we extend to the relatives of our late deceased Brother Victor H. Medley, their deepest sympathy and condolence; and be it further

Resolved, That a copy of these resolutions be spread upon the minutes, and a copy be sent to the parents of our deceased brother, and that a copy be sent to the International Journal for publication.

Sincerely and fraternally submitted,

Albert E. Cohn,
E. Rush,
F. A. Taylor,
Committee.

BROTHER ROBERT GLENCROSS.

Whereas, Our Heavenly Father in His infinite wisdom, has deemed it best to call from this world and busy cares of life our esteemed Brother Robert Glencross of L. U. No. 21, of Philadelphia, Pennsylvania.

Resolved, That we, the members of No. 21 bow in humble commemoration, and most sincerely mourn his loss and extend to his family our deepest sympathy in their sad hour of bereavement; and be it further

Resolved, That we drape the charter of this Union for a period of thirty days, and a copy of the resolutions be spread upon the minutes, a copy be sent to the bereaved family and a copy be sent to our official Journal for publication.

Peaceful be thy silent slumber
Peaceful in thy grave so low
Thou no more will join our numbers,
Thou no more our sorrows know.

O. E. Hale, Press Secy.

BROTHER EDWARD E. A. PANKOW.

Whereas, Local Union No. 41, I. B. E. W. has sustained its first loss by the death in his service for his country in the war for democracy; and

Whereas, It has been the will of the Almighty God to call from this world, in the prime of his life, our beloved and esteemed Brother Edward E. A. Pankow; and

Whereas, The members of Local Union No. 41, I. B. E. W. has lost by his death a loyal fellow member, a sincere and earnest worker, a true friend and brother, esteemed by all; and

Whereas, The intimated relation long held by our deceased brother with the members of this local rendered it proper that we should place on our records, our appreciation of his services as a member and a man of merits; therefore be it

Resolved, That while we bow in humble submission to Him who doeth all things well, we mourn his loss; be it further

Resolved, That the members of Local Union No. 41 extend their deepest and heartfelt sympathy to his family in their hour of grief and sorrow; and be it further

Resolved, That as a mark of respect and sorrow, the charter of Local Union No. 41 be draped for a period of thirty days, and a copy of these resolutions be sent to his family, a copy spread upon the minutes of our meeting and a copy sent to the Electrical Workers Journal for publication.

Wm. Kershaw,
Wm. Fisher,
Geo. C. King,
Committee.

BROTHER P. H. KOCH.

Whereas, Our Heavenly Father has called to rest, our esteemed Brother P. H. Koch; be it
 Resolved, Our heartfelt sympathy be extended to his widow, children and other relatives; be it further

Resolved, That our charter be draped for 30 days, a copy of these resolutions be spread on the minutes, and a copy sent to the Grand Office, to be published in Official Journal of Local Union No. 83, Los Angeles, Cal.

J. T. Rundel,
 Chas. L. Ludt,
 W. L. Moore.
 Committee.

BROTHER LAYNE HIXON.

Whereas Our Almighty Father in His infinite mercy and wisdom, has deemed it wise to remove from our midst our Brother Layne Hixon.

Whereas, We mourn the loss of one who in life was a true friend, a loyal union man and a workman who was a credit to his craft; be it

Resolved, That we as a union in Brotherly love pay tribute to his memory by expressing our sorrow of his loss and extending our deepest sympathy to his family in this their hour of bereavement; be it further

Resolved, That we drape our charter for thirty days in mourning of our loss, that a copy be sent to his bereaved family, one to our Official Journal and a copy be spread on the minutes of Local Union No. 280.

S. A. Livingston,
 Wm. Purnick.
 Committee.

BROTHER ROSWELL J. McBRIDE.

Whereas, The Commander of the Heavenly Host, has called to service above our late Brother, Roswell J. McBride, who died at Camp Lewis, May 10, 1918; and

Whereas, The deceased brother, though a recent member, had shown in joining our organization and later in enlisting in the service, a willingness to fight for the highest ideals of democracy both at home and abroad; therefore be it

Resolved, That we voice our commendation of the manly course he chose to follow and that we express our heartfelt sympathy with the bereaved widow and family; and be it further

Resolved, That the charter be draped for a period of thirty days; that a copy of this resolution be spread upon the minutes and be sent to the bereaved family, and be printed in the Worker.

A. J. Oakes,
 Oscar Brookshire,
 D. P. Reid.
 Committee.

BROTHER ED LAVALLEY.

Whereas, It has pleased Almighty God, in His divine providence to call from his labors, our esteemed Brother, Ed LaValley, who met death by electrocution, on the 25th day of April; and

Whereas, We mourn the loss of one who was a true friend, a loyal union man and a workman who was a credit to his craft; be it therefore

Resolved, That we the members of Local No. 609, Spokane, Wash., do hereby express our sincere sympathy with the sorrowing widow and family; and be it further

Resolved, That our charter be draped for a period of thirty days and that a copy of these resolutions be spread on the minutes, and be sent to the sorrowing family and be printed in the Worker.

A. J. Oakes,
 Oscar Brookshire,
 D. P. Reid.
 Committee.

BROTHER HARRY M. LOWDER.

Whereas, It has pleased Almighty God, in His infinite wisdom to call from this life our respected friend and brother, Harry M. Lowder.

Whereas, We mourn the loss of one whom the members of Local 649 held in high esteem for his sterling character and qualities as a true and loyal member of this union; therefore be it

Resolved, That we, as a Union, in brotherly love pay tribute to his memory by expressing our sorrow at his loss, and extend to his family our deepest sympathy in their hour of bereavement; and be it further

Resolved, That a copy of these resolutions be spread on the minutes of our Local, a copy sent to the bereaved family, a copy to our Official Journal for publication, and that our charter be draped for a period of thirty days.

J. T. Bromlette,
 R. E. Nimerick,
 G. W. Gates.
 Committee.

NOTICES.

If A. G. Herdliska sees this notice or any one knowing his address please write to Tom Burchfield, 1400 Russell St., Nashville, Tennessee.

Owing to difficulty with the four leading shops in San Antonio, Graham & Collins, Martin Wright, Wright Bros., and Smylie Order Co., we have placed in force Section 8 of Article 14 of the Constitution. Pay no attention to advertisements in newspapers as we are always willing to

give information in regard to work any time it is requested.

J. W. Null, B. A.
1022 E. Houston St., San Antonio, Tex.

Duncan Pearse, a citizen of Butte, wants information, as to the whereabouts of O. C. "Shorty" Irwin, a former member of Local Union No. 9, of Chicago.

Anyone knowing the whereabouts of this brother, will please communicate with Duncan Pearse, 213 West Park St., Butte, Montana.

Fraternally yours,
Clem Burkard, B. A.

On and after June 1, 1918 any union man working within the jurisdiction of Local No. 378 without a card or permit from that Local will be assessed the sum of \$1.00 for each day so worked. This is to protect L. U. 378 from parasites who are trying to benefit by conditions gained without paying for same. All traveling members are welcome as per constitution but bloodsuckers hurt.

Ordered inserted in Worker by order of L. U. No. 378.

C. R. Tinsley,
Business Agent and Press Secy.

On account of conditions existing between this, local union and the Eugene Light & Power Company it is necessary for us to declare same unfair, and publish this information so that members of the Brotherhood will understand the situation should they seek employment of this concern.

L. F. Myers, Pres. Local Union 529.
L. F. Smasal, Secretary.

Local 651 of Medford, Oregon, have been on strike with the California & Oregon Power Company for some time. The matter has not been settled and 651 still holds them on the unfair list. All members are notified not to accept positions from this Company until notice of settlement is published.

Notice is hereby given that Ex-Brother W. A. Case is looking for a card in another local, and we wish to have any local communicate with Local No. 96 before issuing same.

Signed,
Committee L. U. No. 96 I. B. E. W.
M. J. Doyle, Pres.
J. Lawrence Fire, Sec.
A. Peterson.

The following members are unfair to Local 529, as they refused to leave the light job in this city, after action had been taken by the local: G. B. Fish, J. C. Trafzer, E. G. Vogt, M. B. Eaton.

Signed,

Rec. Sec'y. L. U. 529.

EDITORIAL

LABOR'S LOYALTY. The Nation has now been involved over one year in the war for world Democracy and the patriotism of all classes of citizens has been fairly well tested. This test shows there is no more patriotic body of citizens than the great mass of trade unionists comprising the American labor movement. The demands of labor as a whole have been conservative and based on the requirements of the times. Of course there have been cases where demands have been made that were unreasonable, but these have received no sympathy from the great mass of organized labor.

Labor has been willing, still is and does consent to refer its requests to any competent and fair-minded tribunal for adjustment. Our experience shows that usually employers are similarly inclined. However, there are some employers who fear the weakness of their case that assume an arbitrary attitude and decline to surrender what they term their rights to outsiders. For instance, the Western Union represents the position of a small minority of employers that still clings to the obsolete idea and method of bargaining individually rather than collectively with their employees, attempting to justify their position by a claim of rights.

We wonder what is meant by "rights." Presumably the privilege to do as one pleases. We doubt if anyone has or can be granted such a privilege when the world is facing the crisis it is to-day.

We question the wisdom of any individuals having what they consider rights above that of the Government or Nation. Every individual can and must have equal rights at this or any other time, but they can not be superior to those enjoyed by the citizenry as a whole.

In war time our rights are confined to our individual citizenship. We are each and all a part of the 110,000,000 people composing the Government of the United States and, as such, should realize our responsibilities and understand our duties.

We have agreed among ourselves that the Hun and Turk must be subdued in order that the freedom we enjoy will be continued and extended to the oppressed people of the world.

This agreement provides that certain of our citizens most fitted shall proceed to the trenches of France and Belgium and stem the mad onrush of autocracy. It also provides that those best fitted shall remain here and build the things necessary to maintain those who are actually doing the fighting and who are confident that we at home will carry out our part of the compact. Are we? In the main, yes; but now and then, no.

We have yet to read of a retreat or defeat of our boys "over there." Can we say as much for ourselves "over here"? We are ashamed to confess we can not. We have made many—too many—retreats, retreating in a cowardly and sometimes panic-stricken manner from the battle front of duty. Too often we have done this, lost our heads either as employer or employee and retreated from our duty in a manner that would make us hang our heads in shame if our boys over there had displayed so little courage when facing the Prussian hordes.

There is no internal question that is too large for a common sense adjustment. Our petty larceny disputes can be settled in a sane peaceable

manner. The big question in Kaiserism vs. Democracy and Kaiserism, like the black plague it is, spreads and spreads and will continue to spread unless those of our citizens who have gallantly and cheerfully gone forth to stamp it out are accorded the full and whole-hearted support from all of us.

The employer or employee who is responsible for delay in manufacturing munitions which our fighting forces need is firing a volley into their 'brothers' backs. The delay in building a ship has the same effect as one sunk by a submarine. Do we realize this? If we don't, we should and must.

Labor, of necessity, must maintain its standard of wages and conditions. This can and will be done by the application of business principles which embody the methods of arbitration and conciliation. But, under present conditions, strikes should be avoided most religiously until after every other method of adjustment fails.

PROGRESS WILL CONTINUE. The referendum results on the constitutional amendments appear in this issue. These results have determined questions of great importance to the Brotherhood and make possible the continuation of the progress our organization is enjoying.

The overwhelming majority cast against a per capita reduction, demonstrates that the general membership is not in favor of a cheap organization with its consequent cheap results. It also shows that the members desire that the organization work go on and on until every qualified electrical worker in North America carries a card.

The progressive thinking members who by their vote supported progressive legislation, can well feel proud of their position and, as time passes, those who supported the defeated amendments, (many through lack of understanding) will see the wisdom of the views of the majority.

The vote cast was the largest ever polled in a referendum held by the Brotherhood. The circular letter campaign was most thorough, arousing the interest of the members as never before. These circulars contained much alluring reading and many attacks on the International Officers. However, the time has long since passed that men will permit themselves to be influenced by unsupported claims. The Brotherhood officers relied upon the progress the organization is making and the fair-mindedness of the members, fully confident that they pay more attention to actual achievement than to idle claims and charges.

Letters received from various local unions and individual members demonstrate that they are amazed at the constructive progress made since the close of the Atlantic City Convention. In fact the Brotherhood officers can hardly realize that over one hundred and twenty locals have been chartered and the membership increased by the handsome figure of 25,000. This in spite of the fact that over 70 per cent of the officers and organizers' time is spent negotiating wage agreements, adjusting difficulties and rendering such other service that the wants of the membership require.

The officers would be less than human if they did not feel deeply grateful to the members who supported the constructive measures; also to those who showed their trades union consistency by favoring a salary increase for their representatives. These things all act as an encouraging incentive to an employee to give the very best there is in him and efficient service is the best way of showing appreciation.

The establishment of self government for the operators will be a boon to that branch of the trade. This like all new arrangements will receive the usual comments and criticisms until its advantages have been proven by actual experience. The operators themselves may feel the added responsibility at first but we know their mettle and are confident of their ability to manage their own affairs.

Now that the various matters covered in the referendum have been disposed of let all get down to real constructive effort and build for the future. Let harmony prevail. Say to the agents of discord, "**construct, not destroy.**"

ARE WE IN THE WAR? What a question! Of course we are in the war. Wasn't war declared over a year ago? Haven't we got men fighting in France and more going over by every ship? Yes, all this is true. But still the question is repeated, are we in the war?

But someone says Hogg Island shipyard is turning out two 7500-ton ships complete every week all equipped with machinery and ready for sea. The Victory Destroyer Plant recently laid five keels in the presence of Secretary Daniels and put the frames up in one hour. Ford is turning out submarine chasers by the hundred. A vast force of factories and men are employed in the construction of aeroplanes. Thirty-two cantonments are training soldiers to be shipped to France, and still the question is asked, "Are we in the war"?

The question is to be answered by the state of mind of those of us who are not engaged in military occupations and those of us who are not engaged in war manufactures or in the production of war supplies of any kind. The answer is not wholly ours, but we have as much to say as anybody else and possibly a little more.

The men at the front know we are in the war. They see the visible evidences of it, in the destructive power of explosive shells, in the devastated districts, in the ruined lives, in the rotting corpses in no-man's-land, and in countless other ways.

But it is for us who sleep in our own soft beds at night to answer whether we are in the war. If we realize that the man in the trenches is fighting our fight, risking his life for our liberties as well as his own and, realizing that, if we consider that nothing that we can give, even to our last penny, begins to measure with the sacrifice that he offers, and then if we are willing to give as freely of that which we have as the man in the trenches is offering his all, then we are in the war.

But the Government is not exacting of us so high a standard. All that we have to do is to save our money and lend it to the Government at 4 per cent compound interest on the War Savings Plan. We are to learn to save our money to lend it to the Government. By lending it to the Government we save, ourselves. Save to lend and lend to save.

AROUND THE CIRCUIT

Following a two-weeks' strike, members of No. 352 Lansing, Mich., reached an agreement with the Citizens Telephone Co. Linemen went from \$3.75 to \$4.25; foreman \$95 per month to \$4.25 per day plus \$10 per month and troublemen and inside men received from \$5 to \$20 per month increase, establishing a minimum of \$100 per month rate for troublemen.

No. 411, Warren, Ohio, has renewed its 1913 agreement with the Warren and Niles Telephone Co., linemen going from \$3.75 to \$4.25, and other branches increased accordingly.

Our Portsmouth Local No. 575 has entered into a new agreement with the Home Telephone Co., securing the union shop clause with increases for linemen to \$4.00 per day; firemen \$4.40 splicers \$5 and troublemen \$104 per month—all straight time.

Locals No. 141 and No. 277, Wheeling, W. Va., renewed their agreements with the Wheeling Electric Company, West Vir-

ginia Traction Company, and Wheeling Traction Company. Failing in the early stages of the controversy, to obtain an adjustment of wage scale and other points of importance to the local unions, both sides agreed to call in U. S. Conciliator to act as umpire, and abide by his decision. Hearing held May 17th and awards given May 21st as follows:

Line foremen from \$4.68 to \$6.45 per day; Class "A" linemen \$4.41 to \$6.00; "B" linemen \$3.60 to \$4.95; Class "A" metermen \$3.96 to \$4.86; "B" metermen \$1.75 to \$3.06; trimmers \$3.38 to \$3.60; groundmen \$2.52 to \$3.60; cranemen 4.95 to \$6.00; central station repairmen \$5.50 to \$6.65; apprentice repairmen \$3.37 to \$4.00. Linemen, 9 hours; all other branches 8 hours.

Companies made hard fight to take meter reading away from our men, but the umpire held with us that meter reading is "electrical work for electrical workers."

Locals No. 352, No. 411, No. 575, No. 141 and No. 277 were assisted by General Organizer Smith.

National War Savings Day June 28th

That's the day we sign up.

That's the day we tell Uncle Sam just how hard we want to win this war. That's the day our government has officially set for us to purchase War Savings Stamps.

On June 28th every man, woman and child in the United States will be called upon to pledge his or her full quota of War Savings Stamp purchases for 1918.

You will be expected to pledge the **full** amount that you can afford—no more—but by the same token, no less.

In every state, county, city, town and village the War Savings Committees are preparing for this big patriotic rally of June 28th. Unless you have already bought War Savings Stamps to the \$1,000 limit, get busy with paper and pencil and figure out the **utmost** you can do.

Remember this. You take no chances when you go the limit on War Savings Stamps. They are the best and safest investment in the world.

They pay you 4% interest compounded quarterly. They **can't** go below par. You can get back every dollar you put into War Savings Stamps **any time you need it**. You can turn them in at the post office **any time** for their full value plus interest.

Uncle Sam is asking hundreds of thousands of men to **give** their lives to their country. He is asking you only to **lend** your money.

What are **you** lending?

National War Savings Committee, Wash.

Correspondence

L. U. NO. 4, NEW ORLEANS, LA.

Editor:

Since last letter, No. 4 certainly has received some good news. We received an increase of thirty cents per day on May 22d, to take effect on May 24th. Of course our agreements with the N. O. Ry. Co. don't expire until some time in 1919, but we took a chance with the Ry. Co. in requesting a fifteen per cent increase. It all came about as follows:

At our April meeting some of the Brothers were discussing the H. C. of L., and trying to suggest ways and means to meet it. It was then suggested that a Committee be appointed to call on Mr. D. Curran, the President of the Ry. Co., and requested of him to give us a fifty-cent raise per day. Well, you know Brothers, suggestions don't go as it's motions that when carried do. We referred back to new business, and the motion was made and seconded and carried unanimously that our Executive Board proceed to Mr. Curran with the above request.

The Executive Board met and proceeded to Mr. Curran's office a few days afterwards and placed the matter before him, and he requested time and told them he would let them know in a week or so. Well, the above were the results.

He gave us thirty cents per day more and told us that was the best he could do for us. It will amount to a few more jingles in the envelope at the end of the week. Of course we were not going to break any contracts and we so informed Mr. Curran in our dealings with him. We told him we were gentlemen and held our word and contracts as sacred. He appreciated it very much.

It goes to show what Unionism can do Brothers, and also what can be done when you approach the Bosses in the proper spirit. Long live Unionism and the I. B. E. W. and may the Disrupters and Corrupters of any International or Union be discovered and kicked out until they repent of their ways and errors.

We lost our worthy Brother Paul Trapani, who was killed on a pole on the morning of May 9th at 9.35 a. m. This Brother was a native of Italy, but had been a resident of N. O. for the past 25 years. He was a young man in the prime of his life, being only 27 years of age. He leaves a widow and young children. This Brother was initiated in our Local on March 13, 1918. He had been working at Gulfport, Miss., which is a mixed Local of Linemen, Street Car men, etc.

There was a strike on over there, and he came here and got a position with the Company as Lineman. We have written to the Local in Gulfport inquiring about this Brother and what they knew of him over there before his arrival here. So far we have received no answers from them. Brothers, when a Local sends you a communication with the seal of their Local impressed on the paper and asking for information, please be so kind as to show that Local the courtesy by answering same. We are all working for a just and common cause.

I understand Brother Trapani was putting a lamp crane at the time of his death and while he was in the act of fastening one of the side guys to cross

arms he grounded himself by coming in contact with secondary neutral leg and his body came in contact with the 2500 volt feeder. The Doctors worked on him with a pulmotor, but was of no avail, as he got too much of the juice. Brothers, do you ever stop to consider how some of us in the youth and prime of manhood start out to our daily tasks in the morning, light hearted and with a smile on our faces and never giving the Grim Reaper, Death, a thought?

It is pitiful indeed to be brought home to our near and dear ones by an undertaker. That is why we should stop squabbling and fighting among ourselves and stop the petty bickerings and get together and use our energy for the common cause for which we stand.

The Street Car Men's Union 194 contract expires with the N. O. Ry. Co. on June 30th. The boys of that Local are busy now on the question of a substantial increase in wages, and also better working conditions. We hope they will succeed in getting all that ask for. The Ry. Co. is now trying to get the fare on their street car system increased to 6 instead of 5 cents as it now stands. Of course they have to get permission from the city authorities. You see the Government financing has the control of most of the cash and corporations these war times, can't get the backing as they would like to. The Ry. Co. has a lot of obligations at meet this year, and with them as with us they have had to meet the high cost of material, etc., and I for one am in favor of the increase to 6 cents in car fares. They, like us, have to have money to exist, and like every other public service corporation if they don't keep their schedules or have a break-down in the service which is no fault of theirs, the public is always ready to bawl them out, which is unfair and unjust when they are trying their utmost to give the public the best service possible.

New Orleans again went over the top in the Red Cross drive, which ended on May the 27th. This is May the 25th, and we could use about two Linemen here now if we could get them. But by the time this letter is published in the June issue we may be filled out by then. We had an appeal from Local 163 and kept the tickets which they sent us. We only wished we could have helped 163 more than that, but we are a Local of about 77 men and the time we pay our hall rent, salaries and other items we have very little left for our treasury.

We had the pleasure of a visit from our Organizer, Brother D. L. Goble, at our meeting of May 8th. Brother gave us a good talk on organization and also of the progress of the I. B. E. W. and the number of new members our Order has gained. He also spoke of conditions as they existed in different places through which he passed, and told us what the consequences would be were the Locals to all vote to cut down the per capita tax to the G. O. It would result in the organizers being taken out of the field on account of shortage of funds as the G. O. would not be able to pay their expenses. Brother Goble is not an orator, and he admits the fact, but he can get right down to brass tacks and makes himself heard and his words are convincing.

Come again, Brother Goble, as we are glad to have you with us. Only wish you could stay here for a few months. and with your convincing manners make New Orleans a 100 per cent town as far as I. B. E. W. is concerned. Our Local voted yes on three of the amendments and condemned the rest.

With best wishes to the Brotherhood, I am

Fraternally,

Ed. M. Smith.

Press Sect'y.

L. U. NO. 17, DETROIT, MICH.

Editor:

News from Local Union No. 17, to let the Brotherhood know that we are trying to do for the benefit of the Electrical Workers in Detroit and vicinity.

During the first week in May the business agent together with the executive board devised ways and means of organizing some 45 or 50 linemen employed by the Detroit United Railway in Detroit and vicinity. After holding two open meetings and sending the Business Agent out in the District, we were able to obtain signatures and the first payment deposit on thirty-seven applications. We were making such wonderful progress with this proposition that the Company saw fit to call all their employees in and increase their salaries. The linemen received an increase from \$4.25 per day to \$5.00 per day; the troublemen from \$4.50 per day to \$5.25 making an increase of 75c per day. The men in the district were increased \$15.00 per month as they are on a monthly basis. This was done by the Company to keep their men from organizing and I am sorry to admit that temporarily it had its effect on the men, but Local No. 17 had a policy of never letting up on a proposition that they start if they have a possible chance of gaining so the Business Agent immediately got busy and at this writing wishes to inform the Brotherhood that we have obligated five of these men and expect to have them all in within the next 60 days. The Detroit United Railway has been unorganized for at least eight years and when we have the Edison Power Co., and the three City Departments 100 per cent organized and 100 per cent organization of Cable Splicers and Helpers and 95 per cent of the Construction Linemen employed by the Mich. State Telephone Co., we look at the D. U. R. proposition as a black eye to our organization, so we are going to exert every effort to make this job a good one and better the conditions of the men employed there.

Saturday, July 27th, we will hold our annual excursion at an island called Bob-Lo where the members and their families will gather for the day to forget about work and enjoy the day in games and other pleasures which the Entertainment Committee has arranged for them and many beautiful prizes will be distributed to the lucky winners. We are looking for a large crowd.

At our next regular meeting, Friday, June 7th, nominations will be open for the coming election which will be held the last meeting in June. In our next letter we will submit the results of the election and list of the new officers for the coming year.

All the members are working steadily and we look for a good summer.

Fraternally yours,

Wm. Frost.

Recording Secy., L. U. 17.

L. U. NO. 21, PHILADELPHIA, PA.

Editor:

A few lines from No. 21. Work around here is plentiful with quite a number of the Brothers from somewhere else working here, on account of the Government jobs. And the prospects for the summer are good. But are we doing anything to improve our conditions with the private corporations, to fall back on when things are back to normal again? It seems that we are rushing madly and blindly in pursuit of the almighty dollar that we are neglecting or forgetting our obligation to our organization. That is, to help build up an organization that we can all point proudly to and truthfully say. "I helped build it." If we would all spend as much energy, working and fighting for our own welfare as we do fighting one another, and cut out all professional jealousy, we would be able to accomplish more. And just the mere matters of carrying a paid up card and going from one good job to another and not appearing at the meetings, only when you have no other place to go, or come to pay dues, does not, necessarily imply that you are a finished product of the labor movement or a grand example to point to as a one hundred per cent union man. Hoping that this escapes the basket and that all of the Brothers will stop, look and listen and drop all imaginary grievances, I remain

O. E. H., Press Secy.

L. U. NO. 34, PEORIA, ILL.

Editor:

There has been no letter in recent issues of the Worker from the storm center of the Brotherhood for the reason that the Press Secretary happened to an accident that put him out of commission for the past two months, I am back on the job again and I want to say for the up and item bunch that we still report progress.

We have one of the best conducted locals in the Brotherhood. We have one standard of unionism and recognize the fact that we have only one common enemy, and locals that want to know what to do with the stay at homes and delinquents and etc., will do well to follow our example.

Our dues are three dollars per month provided you attend three meetings a month, otherwise they are three fifty.

All our contracts are for a closed shop and all men who work must be equipped with a paid up card.

Our Business Agent is not allowed to collect dues that is the Fin. Sec. job and then only on meeting nights.

The duties of the Business Agent is not to see that you pay your dues but to see that a man working under our contract has his dues paid. Contractors are not allowed to belong to the local.

Our meetings are taken up with a discussion of matters that are of a benefit to the Brotherhood and not the employers.

The obligation of the I. B. of E. W. is in full force and effect in our jurisdiction, also the constitution and by-laws, therefore I would advise Brothers who contemplate coming this way to get in touch with our Business Agent before going to work.

Our initiation fee is two hundred dollars. Don't overlook that either.

The attendance at our meetings average about seventy-five per cent and a drunk is not tolerated under any circumstances.

Brothers Robt. (Red) Burns and C. I. Roche have left us and gone to the front. This entitles us to twelve stars in our service flag. The former went to Newark, N. J., and the latter to Dallas, Texas. They have helped put Local 34 over the

top and the Brothers in both cities will find them all to the good, and I take this method of sending them, both the local and my own personal regards.

We have cleaned the city of all Rat shops this spring and since my last letter we have been successful in securing an agreement with the Inter-State Telephone Co. of Peoria which gives Union men full recognition on all of their work, in addition we have secured a foothold on the Peoria and Pekin Terminal Railway that will eventually give us full control.

We are going to the mat with Mother Bell with a view of separating the old lady from some of her profits. It looks like a fight but we feel equivalent to the occasion. The matter is in the hands of a competent committee, and they will see to our end of it.

Dutch Schultz and J. L. (Larry) Murphy both old timers called and paid their respects and blowed for parts unknown. Murphy went west and if he sees this beg to advise there is a letter at Seattle, Wash., for him. With best wishes, I am

Fraternally yours,

W. W. (Shorty) Wade.

L. U. NO. 51, PEORIA, ILL.

Editor:

I thought I would drop you a few lines to let you know that everything around Peoria is going along pretty good at present. Well, work around here has been good. All the Brothers are working and could use a few more linemen. Brother Hopper from our Brother Local was inquiring whether he could get a few men but none are coming this way, so couldn't supply him with any. These are jobs for a Brother with a ticket. Without a green card nothing doing. So any Brother coming this way be sure and have your traveler with you. Brother Anthony joined the navy and left on the 29th of May for the Great Lakes Training Station. As there isn't much going on around here I will close hoping to be able to inform the Brotherhood in the next Worker about our agreement with the Light Company. If you find room for my article please publish it for the benefit of the Brotherhood.

An Ordinary and Low Order of Things.

Really it is not our opinion that this disorder in our present society is an eternal order decreed by God and that better conditions can only be expected in the hereafter. It cannot be an order decreed by God when children are being placed into this world, who under the conditions existing, are condemned never to participate in and enjoy the good things which life ought to have in store for us all. It cannot be an order decreed by God that while capital is being more and more accumulated in fewer hands a large number of men and women do not even possess the minimum necessary for the existence of themselves and their dependents. It is not an eternal decreed by God which is being disclosed by these facts and historical conditions but is an ordinary and low order of things born out of pure and common selfishness. It is a low order of things against which every man with the least social feeling should fight with all his heart, and in this sense we believe that there exists a progress in justice and in brotherly love and that it is the sacred duty of all to join the ranks of those who are pressing onward and towards this progressive goal—From a speech of a well known churchman.

Our capitalistic order of society is often pictured by its supporters as an order decreed by God. This is being done for a three-fold purpose. On the one hand this is being done in order to make the fact appear more harmless to the masses who

do not possess anything that exploiters as well as exploited profess the same religion of brotherly love. On the other hand it is being done for the purpose of relieving the conscience of capitalistic society. It is thirdly done for the purpose of keeping the non-possessor's in a constant state of thoughtlessness, so they do not realize their need or wants. There could hardly be an easier and more convenient way for the capitalistic society than to thus "solve" the burning social question. But the fact that the suffering masses of the down-trodden have come to realize that such a condition of things, as they exist today, can not be an order decreed by God, has struck the hearts of the possessing classes with great fear. This capitalistic order of things offers to the possessors all the fruits of human labor, everything in abundance and plenty, but to the non-possessors, it grants not even enough to eke out a meager existence and the latter class has lost faith in this order of things. This latter fact, the supporters of this system, blame on the labor organizations and their "inflammatory" and "revolutionary" activity without, however, being able to again restore among the workers the faith in the system, alleged by them of having been decreed by God, and even all the means of capitalistic force and power will not have the result desired by the capitalists, the thought of equality and of the proletarian power. The thought of organization is alive, and no power on earth will be able to suppress or destroy it. The working masses want their just share in the things they produce. They are bound to have a life worthy of a human being, a life that is worthy to be lived. They want to replace the capitalistic order of things by a real and true order of things, which will grant to every human being a place in the sun and at the table of life. Can that be called a just order of society which heaps upon the worker's misery and want, which fails to offer them a secure existence and a safe future while it makes possible for the possessor's a life full of joys and pleasures for which they do not work? Is it a just order of social conditions that further prostitution, that fills our jails and prisons and lets the masses starve? That is a confused and wicked disorder which has to be abolished in the interests of humanity in its entirety. More and more the masses are being convinced of the fact that this order of things cannot have been decreed by God. The organized workers have long ago realized and condemned these untenable conditions; again and again they have urged and inspired the fight against this low and ordinary order of things born of utter selfishness. And to some extent, they were successful for the ranks of the proletarian fighters, the fighters for a better and higher order of things, have grown to immense proportions. And the others, the representatives and supporters of the existing order of things? Their answer to the charges hurled against them by the awakened workers merely was: What is it that you who are dissatisfied want? Can you not see that your conditions have been considerably improved, and that you are being provided for with "full dinner pails"? Your wages have been raised considerably, the chances and opportunities to secure work have been improved, and you are being protected against want and misery—what else are you after? And while these same supporters of an unjust system thus attempted to "answer" the workers they, at the same time felt the necessity of feeding underfed children in the schools and they were compelled to adopt other measures to somewhat alleviate the suffering of the people by all kinds of charitable propositions.

Why all this charity talk? Why the constant collections on the public streets on so-called "tag days" if there is no suffering among the people and if they are properly provided for? We maintain that all these charitable propositions, the paper measures against consumption and other plagues, against child labor and the high cost of living are proof positive for the presence and existence of serious suffering among the poorer people. They are also proof positive that our capitalistic parties and the government much prefer to look for a temporary cure for these social diseases of the body politic rather than stamp out and eradicate these diseases. Is it not an infamous shame that is crying to heaven, that we had to go through conditions which made necessary the industrial exploitation of little children? What immense human values were destroyed during these times and how great was the sum of physical and intellectual power that was killed by the inhuman exploitation of these little ones? As far as the capitalists were concerned very little indeed was done in order to make these horrible conditions impossible. The representatives and supporters of the present system find it but natural that women and children should help along in order to earn the daily bread in the poor man's family.

The union label supersedes the boycott by concentrating the purchasing power upon union products.

Yours for victory,

Zeb Brown, P. S.

SOME WHERE IN FRANCE.

Editor:

A few lines from the A. E. F. L. U. 54, February Worker has at last found us here and oh boy it is about the best thing the mail brought this time as yours truly didn't get his customary allotment of letters from home this time but their is so much good dope in this month's Worker, that a few miscarried love letters are not missed much. We were all under the impression that you all were having it pretty tough back in the States, but it is an ill wind that blows no one good. All we have to be thankful for over here is that we weren't bumped off before now and that spring is at last with us. The past five months has been H—, but at the present writing there is not a cloud in the sky and we are all longing for the day we can go in the "Marne" for a swim. Getting back to the Worker, for it is hard to get out of my mind the scribe that wrote the piece on the Honor Roll has sure got the right dope. Sounds as though he knows what this front line stuff is. Well Brothers he is surely right. We have almost enough members to take out a charter in our own Escodrillette but out of the eleven members in good standing I am the only one that gets a worker and none of us ever heard from any of the boys, that is personally if you are writing us all of our mail must be going to Berlin or else the U-Boats get it. We have all French equipment that is radio stuff and planes and are getting along as well as could be expected. Oh, its a great life if you don't weaken, and so far the wire fixers at this outfit have not. We are doing good work. No doubt you get to see an occasional write-up in the papers about us. We have all made up our minds to stay over here for the rest of our lives, but in four or five years expect to change our minds and come back to the States. About all we have to worry about now is whether we will ever learn now to use this French tobacco. As we understand no more cigars or cigarettes, not even Bull, can be sent over to us. This is pretty raw, but as has been stated, the war is to

clear up traffic. We get mail usually once a week, so if any of you Brothers were to do something for the good of the service drop us a line occasionally.

Faternally yours,

Sgt. Geo. A. Leiper,
103d Aero. Pursuit Sqdn., S. C.
Escodrillette Lafayette,
A. E. F., via. New York.

Local Union 54, Columbus, Ohio.

L. U. NO. 59, DALLAS, TEXAS.

Editor:

Dallas is now producing Union made Switch-boards, Tablets, Boxes and Theater accessories. We have lined up The Standard Mechanical Equipment Co. and we will appreciate all Locals and especially those in Texas, Oklahoma and Louisiana, insisting on the Label going on all of the material of this nature that you handle. Of course you realize that this is the only Union Shop of this nature west of the Mississippi river. There is no reason why we shouldn't have fifteen or twenty men in this shop in just a very little while and we can have if you will co-operate with us and I know that you are going to do it.

We are very sorry to report that Brother T. E. Todd lifted a traveler and left town several weeks ago. It is without the least hesitation and without the least fear of successful contradiction that we recommend him very highly to any L. U. who is fortunate enough to secure his membership and state that you will make no mistake by pressing him into service at once. You will find him a willing and very efficient worker, and the best of all, he gets results.

The writer visited Nashville, Tenn., a few weeks ago and found a wonderful change in the conditions of the Electrical Workers. Under the leadership of Bro. M. Newsum with the able assistance of Bros. D. L. Goble, they have worked wonders, which proves beyond the shadow of a reasonable doubt that nothing is impossible if our actions are backed up by enough determination. Nothing succeeds like success and success comes only to those who do not falter but fight on with a grim determination to win despite whatever odds may be against them.

Faternally,

J. A. Hooper, P. S.

L. U. NO. 61, LOS ANGELES, CAL.

Editor:

Well Brothers, as I have just been elected Press Secretary, and as Local 61 has not had a letter in the Worker for some time, will try and give you a few lines in regards to the situation in and around Los Angeles.

Things are very unsettled around here at present. Some days we have all the jobs in the world and no men to fill them, and then the next day we have the Labor Temple full of Linemen, and no jobs to give them, so you can readily see this is no place for a stake. We still have the So. Sierras Power Co. and So. Calif. Edison Co. on the unfair list and you know that all we have now that we can work on is the Los Angeles Gas and Electric and the City job and our Suburban and the ship yards.

We have several of our boys working in the ship yards doing laborers work and several are working at Llewellyns and Baker Iron Works so you can readily see that there is not very much doing in the Light and Power industry. We have a petition up before the Public Service Commission for a 25 per cent increase for employees of the Bureau of Power and Light which if granted will bring the boys up to \$5.62 one-half per day, and the boys

working for the Gas Company are getting very much dissatisfied with the \$4.50 that they are getting. We have an agreement up with the Edison Company calling for \$5.50 and recognition of the Union. They turned it down and were discharging all union men so that is the reason we are on strike against that Company.

Now Brothers, anybody coming this way will find a welcome so long as he has a paid up card, and don't forget that the Edison Company and the So. Sierras Power Company are on the unfair list and wanting men and will be until the settle with the I. B. E. W.

Faternally yours,

J. E. Horne,
Press Secretary.

L. U. NO. 82, DAYTON, OHIO.

Editor:

"OVER THE TOP."

With the I. B. E. W. Boys.

Send your members an Honor Coin. Local Union No. 82, Dayton, Ohio have had made of heavy metal an indestructible Honor Coin which can be furnished in a heavy silver oxidize finish or in bronze, with the I. B. E. W. emblem on it, a spread eagle on one side and on the other side a space to engrave name of Brother, Local No. and City and State, with the words, "In the service of the government fighting for Democracy". This coin makes a very neat pocket piece, and also an identification medal. In the case of those Brothers who will lose their lives these coins will no doubt be kept by their families for many years, and will no doubt act as a constant reminder to all Brothers at the front of the Local back home, and go a long ways towards keeping up his spirits. It is surely very little to do for those who are doing so much.

We are giving these to our local members who have entered the Service and now have a supply on hand and are ready to furnish the I. B. E. W. members with any amount desired at various prices in accordance with the number desired as set forth in a circular which your local will soon receive. Samples will be sent on request at \$1.00 each with order. This is not a money-making scheme but an opportunity to get a quantity price.

Address A. J. Broadrup, Financial Secy. Local Union No. 82, P. O. Box 24, Dayton, Ohio.

L. U. NO. 92, SAN FRANCISCO, CALIF.

Editor:

The war has brought untold misery to most of the people of the earth, but by the very crimes committed by those snakes of the sea, the submarines, has made it possible for a large number of working men in the ship yards to get the largest pay days they ever received. Here on the coast there is only one demand, build ships, and then more ships. The boys are throwing up their hum drum jobs with other companies at smaller wages, and jumping into the good fight to beat the Kaiser, and make more jack. I am not quite sure which has the largest inducement. Now boys, wherever you may be working, and especially those in the shipyards, do your work with a will, don't slack off and dream about what you will do with that pay check, but dig in and remember the faster you can help turn out ships the quicker the foul fiends from the other side of the Rhine will be put back where they belong. We must have but one thought these days of fear and blood, we who can go over there or we who must stay over here, and that is beat the Hun.

Things have changed so fast out here, and men have been wanted so badly as

marine wiremen that it has broken down the old ideas of jurisdiction. The marine wiremen's Local out here is a small one and in no way with its small number of members, able to fill the extra demand for wiremen. So men, of course, from all the other Electrical Locals jumped into the game. I am sorry to say that as it has been in the past so it was again. They who had the work are trying to hold up the boys for permit money or making them jump over to their Local and pay the extra initiation fee. How long in the name of common sense are working men going to cut each others throats and hog whatever game they happen to have the mirage of jurisdiction over?

The only difference between Trust and the average Union is in the matter of power. Give the little working stiff the chance and he will make John D. look like a Selling Plater. There should be none of this silly squabbling, but there will be until the one card system is in use, and a man packing an Electrical card can go any place that Electricians are needed, and he can cut the mustard. Let us cut this fighting out, boys. We are only playing into the hands of the boss and getting nowhere. Let us get together, stop renting so many halls, and having so many sets of officers, and get together in one big meeting place on the platform of help one another and brotherly love.

R. J. T. O.
P. S.

L. U. NO. 94, CAMP GRANT, ILL.

Editor:

As I have time at present I will drop a few lines for the Journal. I am now working for the U. S. A. in the Signal Corp. Have had the pleasure of meeting some I. B. men here, but have met some of Samuel Insull's men, who do not know what a Union card looks like. Altogether she is some life providing you don't weaken. Have plenty to eat, but have a hard time getting clothes sometimes, but this is war I guess, so will have to make the best of it.

Have a hard time getting Union made cigarettes here, plenty of scab ones in camp, but the Union Label sure is hard to find. This also is no 8-hour job either, for they work when they want to, and as long as they want to, but it is all in the game. Wish to say to the Kewanee boys that now that the city is being organized to keep on the job and get all the Electrical Workers into the fold. Before closing wish to inform all my friends and Brothers that a letter don't go bad here, and that it does a person good to hear how the boys back home are making it in their fight with the industrial kaisers, while we are training for the one over across the pond.

Well, will close the switch for this time.
As ever

Archie Maze.
Co. C., 311th Field Signal,
Battalion Camp, Grant, Ill.

L. U. NO. 109, ROCK ISLAND, ILL.

Editor:

Just a few lines to let the Brothers know that 109 is still in the ring. Well Brothers, in regard to work around the dry cities, things don't look very bright, but we are all working at present. We don't get much pay around here as we had one of those life time contracts with the P. P. Co., and none with the Bell Light and Street Ry. Cos. Pays \$4.50 9 hours, so that does not look very good and the Bell job is \$90 and 95 for 8 hours and not much done at that. I am a little late on this, but as

I have been appointed Press Secretary, will have to tell you about our dance we had last January. We had a good big hall full and a nice orderly bunch at that and everybody had a good time, but this is where the trouble came in. We had a brother by the name of C. H. Sprouse at the box office and he taking in the change and we have not seen him since. So if any dear Brother meets that said C. H. Sprouse please let me know as we have a state warrant for him if he can be found. So Brothers if you do come across him don't let him get a chance at your bank roll because he is a crook and has proven to be anything but a man. Brothers this will be all for this time, so will go to bed.

J. C. Lyon,
Press Sec.

L. U. NO. 122, GREAT FALLS, MONT.

Editor:

All the talk in and around the elective city is war. There are union men leaving here every day for the army and navy. Local 122 has given Uncle Sam and the honorable Woodrow Wilson twenty-four men to help get the Kaiser, the last to leave here on May 29. They were Brothers Crall and Blake. Both Brothers are rip-snorting union men and we have no doubt that they will be of great help to their country as they have been old timers in the labor movement. We all hope they will both return when the war is over with no ill effects and with the Kaiser's scalp on their belts.

The world can never expect the captains of industry or the great big financiers to ever take any real interest in the abolishing wars which increases their incomes, and altruism has never been a strong point in the character of the hard-header business man. There is no class that has it in their power to stop the war. In all wars there is working men of the world who as usual in every thing must bear all burdens. There is another call some time in June from here that will take some more of our members. Every town and every union have members who are willing and anxious to get their union into debt because it is so easy, and then call the conservative members non-sports for holding them back. Of course most working men are poor business men, that is the reason they are working men. There are many men in the building trades who would howl their heads off if you work on job with non-union men of any craft. The same union men smoke scab tobacco.

I was going to send to the official journal the picture of Brothers Crall and Blake, but when I went to the studio to get them it looks as though they were out all the night before they had the pictures taken. Brothers Crall and Blake look like two Mexican generals, and I thought it best while our country is at war not to send the pictures to the official journal. The editor might think that I might be pro-German of the I. W. W.

Brother J. A. Daly is out and around and went to work again. Work in and around this section is good at present.

Sincerely and fraternally yours,
M. L. McCarthy,
Press Secretary.

L. U. NO. 147, CHICAGO, ILL.

Editor:

As this letter goes to the press we are pleased to note the A. F. of L. Convention is in full bloom at St. Paul.

One of the many subjects of vital importance to come before the delegates will be the awarding of certain work to right-ful locals. Too often, locals are at a variance, even after a jurisdiction deci-

sion is rendered, that causes a suspension of work which is a stigma in our great movement and in the eyes of the world labor appears to stand against its own progress. There should be no confiction to interpret a jurisdiction decision different than that as laid down by a convention, and it is hoped the little jokers that are not clear be omitted so that when the delegates return to their jobs in their many classes of work they will speed up efficiency and avoid strikes.

On the eve of Bro. McAndrews departure for St. Paul he appeared before the city finance committee in behalf of the City Elevator Operators for a wage increase. He preceded his demands by the recent increases granted to loop Elevator Operators, and at this writing it is apparently very promising.

Nominations of officers was held at our last meeting; the only two opponents withdrawing and the cost of the election was donated to the Red Cross, thereby electing the officers for Local 147 by association.

Fraternally yours,

L. U. NO. 135, LA CROSSE, WIS.

Editor:

Have gathered enough news at last to make a letter for this month's Worker.

The linemen are working for the local Wis. Minn. St. & Pr. Co., struck for 45 cents per hour recently, and in about a week's time were back to work again. The company conceding to their every wish except to sign any written agreement.

The boys went after it in a real systematic way and, complying with the constitution, called a representative from headquarters. Mr. Slatterly arrived and together with the local organizer and committee did much to hasten things along.

Seems queer that such a corporation should show preference or discriminate with their men as they signed up with the inside men when they (the company) started their wiring campaign. Wonder how this same corporation does it in other towns.

Our local has invested substantially, individually and collectively in the various Liberty Loans, and all members are in one or two thrift clubs. We are doing our part to keep Wisconsin at the head, where she so quickly wenat the beginning of hostilities in spite of what some political newspapers have written.

None of our brothers have been drafted, and those that are now serving have enlisted. All the inside men are busy here and prospects for the future are better than ever.

Personally, I believe it would be a good plan to print all or portions of letters of brothers who have written from Europe. Anything to make the Worker more interesting monthly. How about it, Brothers?

Yours fraternally,

E. H. Jaedel,
P. S.

L. U. NO. 155, OKLAHOMA CITY, OKLA.

Editor:

Some more of the boys of 155 have been called to the colors. D. A. McLean, H. T. Asbury, Earl James and Tom Hamilton were the last over. Some more of the brothers are hanging it on the hook and moving on. Brother Tom Delaney, G. E. Parsons, J. M. Evans and Bro. "Red" Wienan are among those taking out. Bro. Wienan is entering the service soon, so there will be another one to add to our honor roll by the time our next letter reaches you. The new wage contract entered into with the P. G. and C. W. is 62½ cents per hour for linemen, 63½ cents

for foremen; \$125.00 per month for troublemen with overtime at same rate as linemen; \$125.00 per month for arc trimming and switch board men and battery men. Two weeks vacation with pay for these. Groundmen 40 cents per hour and overtime rated at time and one-half for first four hours and double time thereafter until employee is relieved from duty. Meter setters and inspectors, same rate as linemen. Our original demand was for 75 cents per hour, or linemen troublemen, meter setters, arc trimmers and switch board operators, an increase of 20 cents per hour, and after a lot of hot air had been used up the committee was instructed to compromise on 7½ cents increase and the rest as named.

Some of the boys are not satisfied at all and you can hardly blame them for this concrete and steel construction is something fierce to go against. We did not get a signed agreement at that, but here is hoping they will get something sometime. We are getting a man now and then from Mother Bell to line up with us and perhaps some day we will be able to make them talk turkey. The local trades unions of this city have declared June 29, as a holiday and every member of every craft is to donate or rather to buy U. S. S. to the amount of one day's pay and also to get out and sell as many as possible. This sure ought to put us on the map. Bro. Fred Chapman was killed last month at El Rend working on primaries and got up against a ground. His parents live at McKinney, Texas. This makes three deaths in three months in this local. Some of the boys are thinking of organizing a new local for linemen only, but I don't know if there will be enough in favor of it or not. The O. G. & E. are starting a crew out to build a high line out of Sapulpa, seven miles long. Not much doing in the city, except maintenance work and a few extensions for service. This is about all the news at present so will close, wishing each and every member of the I. B. E. W. the best of success and hoping our boys all come back from "Over There."

I remain yours.

L. U. NO. 156, FT. WORTH, TEX.

Editor:

Old Sol is playing "tag" with the tops of the thermometers around these "diggings," but the boys are "cracking down" instead of cussing the hot weather, and most of us are cussing Kaiser Bill, and incidentally getting things in shape to help Uncle Sam to knock the hell out of Wilhelm, who is sometimes referred to as K. B. above mentioned. It is inspiring to note that our Locals are taking a united stand to uphold the hands of our officers in their efforts to maintain a unified and progressive Brotherhood.

In the words of our Editor let us "keep up the efficiency of the Local" for we have lots to gain if we do, and lots to lose if we don't. Work seems fairly good in these parts, but wages could be much better without making millionaires out of any of our boys down this way.

If Brother O. H. Key should see this please drop a line which will keep us from mourning him as dead.

Best wishes to all members.

Fraternally,
"Old Crip."

L. U. NO. 138, CHARLESTON, S. C.

Editor:

As this is the second day of June, it is my move to get a letter in the Worker by the 10th. So here it is. Work in this part is at about normal, no new work to speak of by the C. C. L. & P. Co., mostly main-

taining Masons, and Hanger Contractors are putting out a big job for the Government at North Charleston. There will be about six months work out there for a number of outside and inside men. They are paying 60 cents per hour. No doubt by the time this letter is in the Worker we will have had our agreement acted upon by the company, and posted on the wall, and take it from me Brothers we need all we are asking for. Everything has gone almost out of sight to a man making even a fair day's wages, and if he is not receiving what would be called a fair day's pay, he is just above starving and will soon go under.

Brothers, you take a man out working for wages that he has to use every penny to feed his family and keep a roof over their heads, and he has not one cent for even the commonest kind of clothing for his family. That man is living, and no more, and must soon go down. So I say that we have a doctor that can take care of conditions of that kind and the doctor is the I. B. E. W. with a darn good local union in your home city. Brothers, to get good living wages you must have a good strong local. If you only have ten members, let them be ten good loyal fighters and then you will go home to your family at the end of a week's work with a pay check that the wife can say, well, this is for rent, and this is for groceries, and this is for shoes, and maybe she can put a \$2.00 bill in the tin box on the mantel for a rainy day.

Now Brothers, that is what a Local Union of the I. B. E. W. brings with good backing, so lets keep shoveing our Home Local and by so doing have a bigger and stronger I. B. E. W.

Brother Sorger of the John Jones shows, is now in the North Central States, and if any Brother wants to meet a good, honest, through and through white man and a good strong card man, let them go to the show grounds and ask for Brother Sorger, and after they have been in his company a few moments, they will say this writer knows how to tell the truth.

Brother Tom Corby is still at Camp Jackson, Columbia, S. C., and if he is not a general yet, you just wait, give him time and he will have the star on his shoulder straps.

Brother Brown is now working for Mason & Hanger at North Charleston, and they only have one trouble with him, and that is he is so small they can not see him in the crowd, but they get by alright, by tying a cow bell around his neck, so they can hear it. But they have to be near him all the time at that, because they found him off in the woods sitting down in the shade and shaking the bell by hand, so the boss would think he was working.

Fraternally,

Billie King,
Press Sec'y., 188.

L. U. NO. 220, AKRON, O.

Editor:

Kindly publish these few paragraphs in the next issue of the Worker to let the Brotherhood at large know we are still in existence.

During the past month the draft has called five more of our members, Brothers Kaelin, Hall, Stelba, H. Knocks, and W. Wheilden. This Local has almost fifty stars on its War Service Flag and expects to pass that number before long.

Brother A. L. Johnson has his pliers in his hand instead of a gun. You ought to see him make the military corners with a split hickory on his shoulder.

We all wish them the best of success and luck.

Personally, I think that the Kaiser will want to sign the agreement (peace) should they come in contact with him.

Brothers, we are still out on strike. We have a few of the contractors signed up, but the large contractors are still unfair and the battle is still raging. A short time ago this Local awarded Brothers Wm. Kersey and H. Mason with medals of honor for bravery during the strike. Five of us went "Over the Top," but only two received medals for bravery. Before the strike is over we want to see every member of this Local wearing a medal. Up to date we have not lost a man and are confident of a victory in the near future.

Here is a list of the contractors who are still unfair to us and are ex-members of the I. B. E. W. Geo. Carle of No. 141, H. T. Uhl of No. 38, E. Kempel of old No. 11 of Akron. These contractors worked nights and Sundays on a certain job that was awarded L. U. No. 220 when the strike was called. We were pulled off the job by the Building Trades and they took advantage of us and worked themselves. Can you beat it?

A few rats are in town working for these unfair contractors. Collins is one of them, a village floater. Well, boys he can fix door bells and buzzers, so we don't worry much about him. Another rat, Brady, is a would-be foreman for the Carle Electric Co. Some day I think he will be looking for the SHORT in his tool bag, but I don't think he will find it. This snake Brady hails from the mountains of West Virginia, and claims to have carried a card in No. 5 and No. 141. Now this specie of a man Brady is a lovingly sort of a fellow and if you once see him you will always know him even in the dark by the little thing he wears on his upper lip, and if you don't talk unionism to him you will find him very sociable. "Nough said." There are afew more rats in town and we will see that their names are published in the next issue of the Worker. One thing we are thankful for: most of our boys are working in Akron, and the rest are working in Youngstown. Boys we have them licked.

Now we wish all traveling Brothers to steer clear of Akron till our difficulties are over. However, you stray into town we will see that you get a bite to eat providing you have a little yellow ticket on you. Boys it is hard to say stay away during this nice weather, but you all know what it is to be out of work in a strange town.

Well, I guess this will be all for this time as the strike talk is not very interesting. Hoping this passes the censor and I can give better news in the next issue, and wishing all the brothers the best of success, I remain

Yours for the cause,
"Mac" Frank W. McCabe,
Press Sec.

Care C. L. U. Hall, Akron, O.

L. U. NO. 222, MEDICINE HAT, ALBERTA. Editor:

As there has not been anything in the Worker from L. U. No. 222 for some considerable time, I will endeavor to utilize this Local's share of space for once.

Since the war began, our Local has dwindled down like all other locals and the burden on our members has been pretty great at times, especially when you consider that we have kept one-third of our membership in good standing while they are away for nearly four years, as well as keeping up routine work. However we have been able to keep our heads above water and have made a little progress. There is no doubt that there have been many things transpire here which would be of interest to our membership, but we have been too busy to let them know of it.

Our members have been quite interested in the happenings of the I. B. recently. While more of us are taking sides in the matter, we feel quite sure that every thing is not in proper working order or there would not be the dissatisfaction. One is led to believe from the amendment of I. E. B. that our present system of a per capita vote is not an entire success, and by comparing notes of the action of the convention and the referendum vote of the membership on the work of the convention, it becomes very evident that it is not a success.

Local Union 222 is not going to attempt to fix the blame for such a precarious state of affairs, or to criticize anyone for what has or has not been done, but we as members of the Brotherhood do feel that something should be done to remedy the evils that have existed so long. We believe this can be done if all are prepared to make a little sacrifice, even though personalities have crept into our Brotherhood affairs. We all felt that a great stride was made in the right direction at the Atlantic City convention, and it seems a shame to us that on account of personal differences we have to go two more years for the relief we have so long sought for.

In fact the experience of the last two conventions, teaches us that there should be some different system of voting upon the amendments to the constitution, so that we could at least make a little progress after each convention. Our Local has appointed a committee to go into the question of voting on the amendments to the constitution submitted after the convention, on the same basis as amendments offered by the E. B. This to our mind is the only way out of the difficulty we find ourselves in at the present. True it will not cure all our ills at once, but we feel that it will allow us to progress one step at a time, until we have gained complete harmony in our organization, which we so much desire.

We have nothing especially new to report at this time except that two of our prominent members until recently engaged in business for themselves, have returned to the fold of the Local Union as full pledged members, as the city has gone into the Electrical contracting business and our members simultaneously retiring, it goes without saying that we welcome them back into the active movement again.

Over half of our members have joined the Local Union of civic employees, which has recently been organized here which embraces the employees of all departments of the city, including the police and fire departments. Just imagine rough-neck linemen and narrow-back civic men rubbing shoulders with members of the police department and plumbing inspectors in the labor movement, but it is a fact just the same and if we have the success some other western towns have had, it will begin to look like organized labor has come into its own in Western Canada.

With best wishes to the membership.
Fraternally yours,
Byron Vickrage.

L. U. NO. 225, NORWICH, CONN.

Editor:

As we have no press secretary at present on account of our Brother Hector Bernier enlisting in the service of his country as an aviator, I will endeavor to pen you a few lines before our election of officers in July, and I assure you I have my helmet on in case I get the hook.

Well, Local Union No. 225 is still on the map and could stand a blow-out any time, although quite a number of our Brothers have grasped Uncle Sam's hand, yet we have enough left to fill our offices and draw up a new agreement for the future, also a set of By-Laws, I hope.

We have a few on the outside, also carpet baggers, who have their offices in their hat, and it takes a lot of air to convince them that it is for their good that we are working. Sometimes it seems like bailing out a well in a boat to a fellow, but we get some at most every meeting, and by that we know we are standing on the right side of the trench.

And I tell you they must also when they have been obligated by our able President Brother Corning, and shook the mighty hands, not hams, of such Brothers as: Paul Pierce, Captain Keeney and Steward, Geo. Sanders, and many other brothers, who are not slackers when it comes to escaping death bombs, midnight rides to Willimantic in a Ford playing with a 2300 volt line and wearing iron shoes.

But, Mr. Editor, the high cost of living has hit Local Union No. 225, and makes us feel like a New London Miss, all dolled up and no where to go. ("Wake up boys, no names mentioned.") It makes a fellow itch, yet don't know where to scratch.

This world war is indeed an awful thing, yet it has built up our sister city, New London, wonderfully. About 50 per cent of our Brothers are working on Government work. How are the German Huns and its smaller huns going to win this war when so many of our Brothers of Local Union No. 225 are working on Uncle Sammy's Submarine Chasers. Believe me, Mr. Editor, they have got in a heavy fuse, and are not going to say down until they have to.

We had a good attendance at our last meeting, together with quite a lot of "skull practice," and hammering to explain to others, the ways whereby we could dissolve the wage slave, and shoot a few more short circuits at the contractors.

Foreman Brother May is always on hand, so Brothers when late be sure you have the pass-word, for he has just learned some choice points on boxing at the Submarine Base.

Brother Treasurer A. R. Pierce is never absent from his corner, especially when money is in sight. Ed is always looking for dues, of which the Brothers respond freely, but we hope that pretty young girl of Westerly does not relieve him of that small roll while he is busily fishing in an outlet.

Hold the line a minute longer, I would like to say a word or two to the Brothers who do not attend our meetings. Why don't you come up and enjoy yourselves? About as many stay away as come, and our delegates to the Central Bodies are doing fairly well, but remember Brother Electrical Workers, that while you are asleep, the hands of organized capitol work harder than we do.

If the Electrical Workers would all stand together and be conservative, be firm in demanding what was their just reward for honest service, we would be the strongest labor body in the A. F. of L.

Well, I will not electrocute this letter by going to sleep on the job as it is late now.

Now Mr. Editor, please don't let this legal document get into that small wooden basket under your desk, as I have heard some of the Brothers growl when they have noticed no letter in the Worker from Local No. 225.

Thanking you in advance for publication, I am

Fraternally yours,
W. P. H.
R. S.

L. U. NO. 231, SIOUX CITY, IOWA.

Editor:

Although news is rather scarce this month, will endeavor to let you know we

are alive. All members are working full time and enjoying the conditions of our new scale.

The applications have been coming in regularly of each meeting and we now have nearly a 100 per cent organization.

Several of our boys will probably be called in the next draft. Bros. Joe Wacker and Francis Drake have signed for service in the ship yards and expect a call at any time.

Bro. Geo. Radden has been elected as delegate to the Iowa State Federation Convention which convenes at Mason City on the 11th of June.

Last issue we commented on the outlook of the street railway employees here. They have reached a satisfactory settlement without any strike. They gained complete recognition of the union and 6c (six) per hour raise. The clause for a nine hour day was waived on account of shortage of men.

One of the largest aids in the settlement was a letter written by Mr. W. W. Short, Mayor of Sioux City and published in the Sioux City Journal.

Mr. Short was elected on the Labor ticket at the spring election.

We held several interesting talks with Brother J. S. Slattery who has been here the past week in interest of Local 47. We are always glad to meet James, as he has good stuff to offer at all times.

L. U. NO. 242, PITTSFIELD, MASS.

Editor:

Since it has been some time that Local 242 has been heard from, we want the brothers around the country to know what we are doing here in the old Berkshires.

The General Electric Company here has tried the patience of all good union men and non. As it is good weather, it has become necessary for decisive action. Previous to March 11th, meetings were held and demands formulated both for Crane-men and Wiremen and the local here agreeing to a Joint compact between Local 267 of Schenectady and Local 242 of Pittsfield, that neither one would take action till the other had decided along the same lines. On March 11th the demands were handed to the manager of the Pittsfield works, and, because of the heading and number of the Local, the manager refused to see them. May 1st had been set as a final date and the company offering no conferences with the manager, the Executive Board ordered all union crane-men, crane hitchers, electricians, wiremen and helpers, on strike at 2 p. m., May 1st. The strike was pulled off in a perfectly orderly manner and about eighty crane-men and 35 wiremen were affected. Of course, there were some very loyal men to the company, once members of the local here, who did not care for more money nor working conditions. Also these very men were so small and nearly brainless as to sign an Individual Contract" with the company. This contract has been the bone of contention here in the plant for three months. It requires men to give ten days notice of leaving, 60 days notice of strike and must be employed a year after signing contract before giving notice of striking. Some contract, those with minds of any size saw through it and stood firm against signing it. With our exodus, we are necessarily tying up other union men but they are back of us and all unions have unanimously voted to refuse to handle unfair work, done by either crane-men or wiremen. Let me say, our demands were fair enough owing to the high cost of living and the higher rates paid elsewhere. Crane-men asked for a 25 per cent increase for all connected with cranes and the wiremen asked for 65 cents for electricians, 60 cents

for wiremen and 45 cents per hour for helpers, along with a few fair working conditions. The whole plant having a number of grievances and demands for a general increase, it was decided to strike the work at 9 a. m. Monday. But with the coming of Hon. Henry Speffington, Federal Conciliator from Washington, D. C., this strike was not called, the company allowing the men the day off to talk over the proposition of laying the matter under fire into the hands of National War Board. This action was unanimous in all the organizations, the cranemen taking the proviso that Schenectady would do the same. The plant returned to work as usual this morning but the cranemen of Schenectady holding out, we are loyally sticking back of them. The company has used the policy of calling us unpatriotic, unjust and unfair during the distressing times of war. Nearly all of our members of organizations hold more than one Liberty Bond and many of us have relatives over on the other side. Local 242 ordered two cranemen into the plant in order to move three transformers out of the testing pit on to flat cars. These transformers being consigned to the Ordnance Department of the U. S. Government. We are willing to stand by the good old U. S. A. and do what is right, but it is about time that some of these corporations were stirred up and made a little more patriotic. Well brothers, this is about all at this time and we hope for a speedy and amicable adjustment of this controversy. Work being very slack in this section.

Very fraternally yours,
R. S. Slagle.

L. U. NO. 253, MINNEAPOLIS, MINN.

Editor:

Greetings from Elevator Operators' and Starters' Union, Local No. 253.

I don't know just how I should begin as a Press Secretary, as we are quite a new organization. That is to say, new in the I. B. E. W., but however we were organized last fall, known as the Elevator Operators Association. Since we received our charter from the I. B. E. W., we feel a new sunshine in our Local. We did not see quite so brightly before, when known under the old name.

The Elevator Operators wish to thank Brother Raymond Cleary, the International Organizer, for the interest that he has taken in them in this city.

We should have been heard from in the Worker, before now, but all of our Brothers declined, as they feared they could not act in that capacity as Press Secretary. I know different, as we have competent material in our organization. There are a good many more capable of acting as Press Secretary than I, but as nobody would accept it, it was up to me. As I am the President, I shall be proud to be the fall guy.

Brother Raymond Cleary is with us whenever he possibly can be, and the members of our Local pledged their loyal support to him, as he is assisting us in a membership campaign. Our Local is growing slow but sure. We are looking forward to the day (if nothing unforeseen occurs) that we will be a one hundred per cent organization.

Our experience so far has at times been rather difficult in convincing some of the Elevator Operators of this city that they should be in the Labor Movement. They do not understand the benefit that it would be to all of the operators. As some of our operators here are quite young men, they consider elevator operating just a temporary job, as far as they are concerned. But that is not the way they should look at it. We have some men

pretty well along in years, who are disqualified as far as doing manual or other work. Therefore, the young men should get in to our organization and help us make it a good job for those who have to work as operators.

We must also not forget some of our boys who have gone over the seas to serve our country for Democracy. We should all welcome them, when some day they come home with victory won. Those of us who stay at home should do our bit to bring about good conditions to work under, so as the boys may know, we were not asleep while doing our bit for them.

I remember some years ago we did not receive the wages we are getting today. Elevator Operators are getting more in the city of Minneapolis, in some of the buildings, than they ever dreamed of before in this part of the country.

For every one dollar that the operators have put into the organization, they have received it back with compound interest.

Some of the building managers here are paying from two and three dollars above our scale of wage, to keep the operators from joining our organization. We are trying to convince those operators that their receiving above our scale, to be careful, as it is a bait with a hook in it. Just as liberal as they give it to the operators, they can some day take it away from them, and the operators will then realize what I have said about the bait with a hook in it. We need organization more so after we get the raise of wages than ever before.

In order to maintain what we have received, some of the buildings here are employing female operators, but the managers seem to be getting rather tired of them. Also the lady operators get tired of their jobs as the novelty wears off. Now as far as the elevator operators are concerned we do not object to female operators, as long as the managers would be doing it for patriotic reasons. They should then pay them men's wages. There is no shortage of men if the building managers would actually want to employ them and pay them living wages.

The thirty first of May we are going to conduct one of our open meetings. We are going to advertise it very strong, so we are looking forward to quite an attendance. Our regular meeting nights are the first and third Friday of each month, at 251 Hennepin Avenue South.

I have told you everything that is of importance this time. I will try and have a little something in the Worker each month hereafter.

Fraternally yours,
Henry A. Meyers,
Press Secretary.
Local No. 253.

Home Address, 1200 2d Avenue South.

L. U. NO. 271, WICHITA, KANSAS.

Editor:

As the press secretary has taken a traveler, I guess I will try to write a few lines as we are still on the map and perhaps the Brothers would like to hear from the Kansas Rats' nest. I believe Wichita turns out more rats to the square inch than any other town of its size in the world, but never the less there are still lots of good loyal brothers here, and they sure have the pep or they couldn't stand the fight. I think that Wichita soldiers are getting their training for the trenches right here at home, but will cut this and tell you the news.

Brother Pete Castholme, our worthy press secretary has been called to the colors and will report the last of this week I understand. Sorry to see him go, but know that he will do his duty and wish him all the luck.

We are making a raid on the Bell Telephone Co., but cannot tell whether we will succeed as they are an awful bunch of cowards, but will know more next month. We are adding a few members to our bunch every meeting, which shows that we are at least trying to get ahead. We closed our agreement with the inside contractors at 68¢ cents per hour union conditions, but our two biggest shops are ratey, and we don't seem to be able to clean them out, but are all working at present. We could use a few linemen at the oil fields if they should happen to drop in wages 3 per cent; \$5 per day, union conditions. Kansas Gass needs linemen at four fifty, but the boys are trying to get them straightened up, but are not having much luck.

Well, if this misses the waste basket, may try to write again.

R. A. Hartman,
Press Sec., Pratem.
L. U. No. 271, I. B. E. W.
Wichita, Kans.

L. U. NO. 275, MUSKOGON, MICH.

Editor:

Just a few lines to let the Brothers know that 275 is still on the map, and doing business as usual.

Work has been very good here this summer, and the outlook is still bright, much better than we expected it to be, owing to the high cost of building material.

As our city climbed on the water wagon with the rest of Michigan, and our inspection rules have become more rigid, we have had much work, fitting up the former saloons for other lines of business.

I almost forgot to mention that we received an increase in wages May 1st, and I am glad to say had no trouble in doing so.

The local held a fish fry before May first overtook us and all the boys went home happy with a package of fish.

Fraternally yours,
Jas. E. White,
Rec. Sec.

L. U. NO. 292, MINNEAPOLIS, MINN.

Editor:

In looking over the last Worker, I notice that there is a new local in our state, namely 731 of International Falls, Minn. The scribe of that local, who signs himself P. L. B. I take it is our old Percy Byron, who decamped a short time ago. With Joe Quinn there to keep the Minneapolis boys from making "Her going Democratic," I'll bet it's some local. Well, lots of power to you Percy.

I would like to advise L. U. NO. 231 that their Brother Tyler landed in Mississippi, bag and baggage, and landed a job in a good shop and made good. The writer has worked with him already and found him Jake, and we are sure that his long experience in Union affairs will help L. U. No. 292 in time.

Our old standby Brother Skoog, was in town a week from Cleveland, Ohio, and was as full of pep and hot air as usual. He enlivened an otherwise dull week.

We have a loyal Brother Buffy here from St. Louis, doing a signal job on elevators. He has been around the circuit a few times and is well posted.

Our Ex B. A. Brother Hoban dropped in from Duluth on an arial job and dropped down to Cedar Rapids, Ia., at once. Last month I meant to report him in from Des Moines, Ia., but as the Worker is a monthly paper and not a weekly, it can't keep up with Tod Hoban.

One of our old members Brother Wm. Fish suffered a bereavement in the death of his wife right in the prime of life.

Members of L. U. No. 292 attended the funeral and six electricians acted as pall bearers. We condole with the brother and extend the helping hand as is our duty to one another, and hope that he and his son may find comfort in their companionship since their wife and mother was taken away in the flower of life.

Work in this locality is getting so that it acts like a Barameter, up and down, and as far as building is concerned there is none. Looking over Building Trades Reports from all over the U. S. we find a similar condition and it brings us face to face with a problem that must be met and met badly. What I percieve is this, the younger element of the Brotherhood is enlisting and being drafted and going away.

The non-unionist is deaf to our plea to affiliate unless we can get him a job, a steady job, if you please, something he hasn't had in his old rat shop before. When things look good he leaves the rat hole and when she slacks up there are more men loafing despite the State Work or Fight Law.

If the working conditions are to be kept in any kind of shape for the boys when they come back we will have to devise some way of swinging the Non-Union shop over in a body, as otherwise they pick up some handy man every time a fairly good man leaves them, and in two weeks or so they make some kind of a wire grabbler out of him. This process goes on and on and the Non-Union shop becomes a regular trade school.

The open shop is not a remedy as our G. E. service company is a good example, because when a Unionist in the employ of the G. E. opens his mouth, Bing, out he goes! Dropping the initiation fee to a low level is not a remedy, as we can see from the other Building Trades in the Twin Cities here who periodically drop their fee in the spring and "Organize."

Ye Gods! such organizing. They gather a motley crew, who would wreck a cemetery association, and boost their membership sky high. Then the usual reaction sets in the good old timers travel and leave the field to the new brothers, who are wholly uneducated in Unionism. Brother Cleary, International organizer, says a mouthful, when he says, "Such tradesmen are no good to anybody."

The eastern cities, who place some kind of restriction on the provisional man, come closer to the ideal condition, because when you make the membership in a Union means something to be attained, you get results. We do not organize for association alone, because we can join a fraternal lodge and get that, but our economic interests should compel us to organize.

The Non-Unionist furnishes us nothing but the incentive to organize, otherwise he camps in our wake, picking a little here and there. We hope to do a little political house-cleaning here in the State Primaries, and expect to finish the job in the November election, namely, to correct the assumption of the Safety Commission, that what is Non-Union must stay Non-Union, and that anybody who violates that mandate is guilty of the crime of "Je's Mageste." These mandates are labeled Order numbers 30 to 76, inclusive. There are other order numbers, but why dwell on an unpleasant subject.

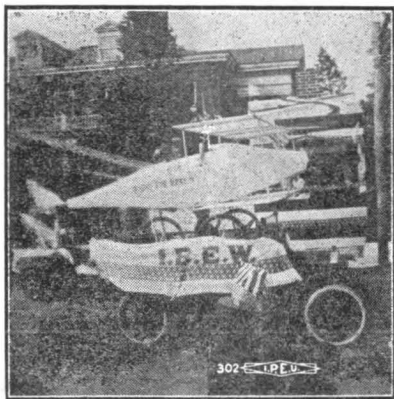

Brother Joe Flaur was a memorial day visitor in khaki from Camp Taylor, Ky. He is in the Radio Corps and likes it fine. He said that he couldn't march with old 292 in the parade that day on account of military regulations, said regulations being three in number, all wearing skirts.

Well, we didn't blame him after the parade, as Organized Labor turned out so strong that they gave us a scab bank band

to head us, and a Home Guard Marshall to lead us, and they led us three blocks up an alley and deserted us. So help us, Johanna, they did. It's on record here in the city. The next morning Blast said that everything went off according to schedule. We agree with them, when I remembered how proudly I had often marched in Memorial Day parades, clapping the old Crag Jorgenson and the old style Springfield, and thought of when in 1909 I marched down Pennsylvania avenue in Washington, D. C., when Bob Evans and his ships came back from the new historic cruise around the world, "ready for a fight or a frolic," and thought of Ex-Presidents Roosevelt and Taft, who reviewed us that 4th of March. I could laid down in that alley and died right there.

Their excuse afterwards that the head of the parade was too long for the tail, did not efface the insult that we of 292 felt, with a 100 per cent turnout, Service Flag Banner and 6 U. S. Flags.

H. G. Bang,
P. S.

Float of Local 312, Salisbury, S. C., designed and built by Bro. B. B. Everhardt.

L. U. NO. 325, BINGHAMTON, N. Y.

Editor:

Will write just a few words to let the Brotherhood and those interested know how we made out in our strike the first of May.

The Contractors Association, headed by the only unfair contractors in town were going to hold to their original offer of 55 cents per hour, but we have been handed a nickel every year and agreed to stay until we got 60 cents or go out of town, where we could get it.

After a few of the Brothers had left town and the independent contractors had agreed to our demands, the other contractors began to set up and take notice. Brother Dowling did very good work at this time by showing up to the other contractors, the president of their organization, who is the only snake we have to fight, showing them how every day he could keep their men on a strike he was grabbing off their work.

About a day or two after this, one of the largest contractors came across and was

followed by another that evening. It took two days later to convince the rest, but they came on Monday, May 13.

And now that everything looks rosy for another year I want to take a slam at the slackers we have in our Local.

Our meeting during the strike and just before, were about 100 per cent attended excepting the men who had permits to work. But now the same old Home Guards are running the meetings again. The slackers did not work during the strike so they think they have done enough for this year, so when meeting night rolls around they stay at home and smoke while the Home Guard does the work and gets blamed if the slackers are not suited. I wish it were possible to fine a member about five dollars for missing a meeting without a good excuse, but it isn't, and so will have to continue in the same old way, pushing the car and letting them ride with their feet rubbing on the wheels.

Well, I feel better with that off my chest so will close.

Fraternally yours,
R. C. Shapley,
Press Sec.

L. U. 325.

L. U. NO. 347, DES MOINES, IOWA.

Editor:

Maybe some of the Brothers would like to know of conditions in Des Moines so will proceed to discourse on conditions generally in this vicinity. There are a considerable number of men still working out at Camp Dodge, and as they are talking of enlarging the camp they will very likely be there for sometime. They get the large amount of 65 cents per hour, with transportation paid. This is the same scale as paid in the city of Des Moines at the present time.

Could any of the Brothers imagine practically closed shop in Des Moines? It sounds too good to be true, doesn't it? But nevertheless it is, but I am getting ahead of my story a little. Along last February we saw a chance to do some good work in the organizing line so placed Brother S. C. Cregar in the field as business agent to see if he could increase our membership. He succeeded in getting 21 applications from the Citizens Electric Company alone. The shop which has been unfair to us for years, although there were about thirty-five applications brought in up to the first of March at which time brother Cregar resigned as business agent and Brother Geo. Thompson late of Minneapolis was elected to this office, later resigning on account of lack of harmony between him and the Executive Board.

The first of April we successfully negotiated a new wage scale and was fairly successful in bettering our conditions which are better at this time, then they ever were before. Quite a number of our Brothers are out hitting the rattlers these days. Brother Phil Ganz having gone to Virginia, Brother King, Heartney, Sister to Baltimore. Brother Heartney came back the other day on his way to Camp Dodge as he was in the draft. I noticed that our local lost out on the honor roll last month. We have at least ten per cent of our membership serving the colors at the present time. We have had a number of the Minneapolis boys with us since last fall. Bro. Tom McKeag blowed in the other day from Oklahoma where he was spending the winter. Bro. Satterly of the grand office was in our city several times this spring. I understand he done some pretty good work for the rough necks in this vicinity. Bro. Broach stopped off to see his family on his way to Minneapolis the other day.

There is a slump in construction work right at the present time on account of so much wet weather, but we expect it to open up with a bang pretty soon.

By the way I wonder how that New York Scribe is going to like the verdict of the ballots on the last referendum. Personally I am strictly against any pernicious influences which has the disrupting of our organization at heart and so should every other member of the brotherhood. The money spent by the dissenting element in our organization could very well have been put to a more commendable use than that to which it was used. As a certain orator in the Trade and Labor Assembly says—
DIGEST THE ABOVE PARAGRAPH.

Fraternally,

Press Secy.

Local 347, I. B. E. W.

L. U. NO. 378, SAN FRANCISCO, CAL.

Editor:

Local Union No. 378, less than two years of age, now stands as the hub of the universe, electrically speaking, on the Pacific Coast, with close to four hundred members and growing every minute. This Local bears the proud distinction of being the first "Marine" Local chartered.

Up to date we have been able to furnish all men needed for shipyard work and will probably be able to do so for some time to come. When we need help will let you know at once through the Worker. Until then you will only be falling for a sucker play if you come to San Francisco looking for work on a speculation. And don't come at all unless you are a "Union" man as well as a "Card" man. Our initiation fee is \$25.00 and cards are accepted strictly according to the constitution. Our examination is fair and square and should not bother a man who knows anything about the game. We don't know what a high board fence means and don't intend to find out. "But!!!!!" we are troubled to considerable extent by blood-suckers, men who have joined some \$5.00 or \$10.00 local and come working in our jurisdiction without bringing their traveling cards. Some bring their cards and then refuse to take the examination although they have pledged their honor to uphold the constitution. We have wasted courtesy and argument upon them in vain. They have prevented us from making the ship yards 100 per cent union. They want to share in the result of our fight but

don't want to chip in. The nonunion men are taking the lead from them and at last our patience is exhausted. On and after June 1st, any man working in our jurisdiction without our card or our permit will be taxed one bone for each day (see notice on Editorial page).

We would suggest that any strictly inside men who would care to come here if called on should communicate with the undersigned as when the pinch comes we would rather see card men get the jobs than ringtails.

C. R. Tinsley,

C. R. Hensley,
Business Agent and Press Secy.

L. U. No. 378, I. B. E. W.

L. U. NO. 382, COLUMBIA, S. C.

Editor:

As my last article went into the waste basket I am hurrying this up on time. Work around here is all good and some good line-men can land here if they write our Business Agent, Brother T. B. Cooper, 1337 Assembly Street. We are so crowded in our hall here since the 50 cent fine went into effect, that in the near future we will move to larger quarters. Local Unions this is the way to make the Brothers attend or else pay fifty cents.

We have bought \$200.00 more of Liberty Bonds for the Third Liberty Loan and gave \$50.00 to the Red Cross. I could tell you lots more but I am anxious to get this in on time for the June Worker and today is the 7th and it must ride from here.

By the time this is being read I will be in the service. Uncle Sam is getting quite a good many of our boys now.

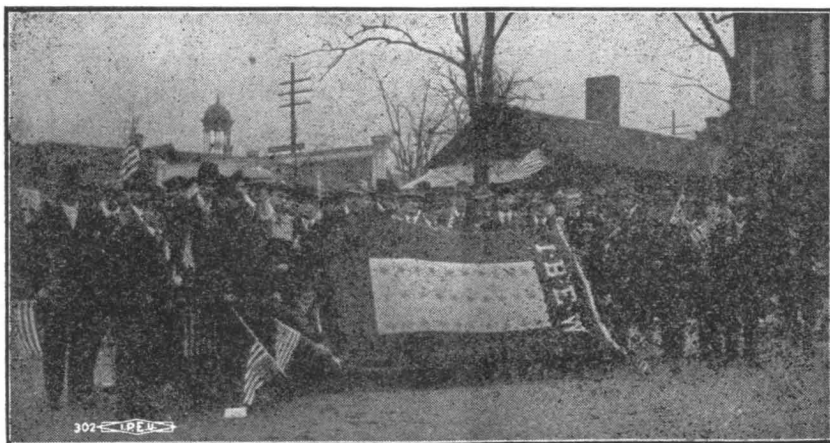

Brother Fred Hughes left us about two weeks ago and is now in Camp Jackson. Luck to this red hair brother. I will be in the 318 Field Artillery Band, blowing the Germans Gas Attack away over their own lines.

We will do stretcher duty, but I will never take one alive. I think they are better off dead and in H——. I expect no *Kamarad*.

Brother T. B. Cooper is some president and he is going to stand by the by-laws and brothers if you don't give a satisfactory excuse you will just have to pay your fine or else throw up your job. This will be the last you will hear from this Bull and the Switch is pulled.

Fraternally yours,

L. A. Smith, P. S.

Local 481, Indianapolis

L. U. NO. 429, NASHVILLE, TENN.

Editor:

We are still doing business at the same old stand. Brothers coming in every day with travelers and we are still taking in new members every meeting. No. 429 now has about 200 members in good standing.

It is important that members, coming this way, should have their T. C. and be prompt about depositing them.

Work is not very plentiful in town but all of the boys are working.

No. 429 has had a little trouble and three of our men failed to come out of an unfair shop when notified, so we placed a \$100 fine on them. Their names are J. A. Wilkes, S. F. Prindle and M. G. Brasher. If these men happen to come your way don't fail to remember them.

Fraternally,

M. Nemom, P. S.

P. S. No. 429 is a mixed local.

L. U. NO. 515, NEWPORT NEWS, VA.

Editor:

Since writing my letter last month we have had our entertainment at the Grafton, and we have had a visit from Mr. Purcell of Washington. At the entertainment were several special guests. Among them, Mr. C. R. Bruning, foreman of the electrical department of the Newport News Shipbuilding and Dry Dock Company, and Mr. Henry Tally, assistant foreman. During the progress of the entertainment, recording secretary Davis made a short speech, in which he emphasized the importance of continuing the drive already begun for a strong and complete organization here in Newport News. His words were: "Keep this good work going on."

Mr. Purcell was here during our regular meeting night of May 28th, 1918. Previous to his visit there had been much perplexity at the manner in which wages had been adjusted on government jobs in this part of the country. Many members of our local did not see why it was that on some of those jobs men were being paid 72c per hour by the companies in charge of the job, while on others they were being paid only 70c. Besides this, many companies were paying men of other crafts more than electrical workers, which has been a source of much embarrassment to the men of our craft.

In his speech to the local Mr. Purcell explained this in detail. The substance of what he said was this: that lack of organization on our part, until very recently, was the reason why we had been paid less than some others when, logically, the pay as well as the classification of men of our craft should be with those at the top. That, comparatively speaking, there were scarcely any organizations of electrical workers along the Atlantic coast in the South, until a very short time ago. So, when the government took hold of the shipbuilding industry, and commenced its gigantic war construction program throughout the country, the proportion of wages between the different crafts, which private enterprise had established by taking advantage of our disorganization, was again used as a basis for making awards. Thus, through disorganization, or lack of organization, the Electrical Workers in the South have not only allowed private enterprise to manipulate the wage scales and keep their wages as near the minimum as possible; but, in failing to call the government's attention to their true rank in time, have allowed this same arbitrary scale, that ranks them second among the classes of craftsmen, to be saddled upon them.

"The reason why there have been continual variations between the wages paid by different companies doing government

work," said Mr. Purcell, "is because there are so many different departments in the government that have control of the wages for the work done in their particular branch, and who make their scales of wages for the work done in their particular branch, and who make their scales of wages independent of other departments."

"Organized labor is making an effort now to get the government to consolidate the adjustment of wages on government work so that one adjustment board may make all awards. Such a plan should put an end to cases in which some men are paid 72c per hour on one job of government work while other men on a similar job of government work that is being carried on near by, under the same conditions, are paid only 70c."

This is about all there is for this time that is new. The influence and membership of the local is steadily growing just as it was at the time at which I wrote before.

Fraternally yours,

Leary Adams,

Press Secretary.

L. U. NO. 542, JUNCTION CITY, KANS.

Editor:

As this is our first letter, we are liable to make mistakes, so please excuse. We were organized March 11th with a membership of sixteen members, and have grown to twenty-four, and we are getting a new member quite often. When a man lights here and goes to work without a card he has to get a permit from our president before he can go to work. We had one brother called to the colors and is now serving at Camp Funston.

There is plenty of work here, both with the Telephone Co. and the Light Co., but men are sure hard to find around here. So if there is any brother wishing work, head them this way, but be sure and have their traveler with them for they sure won't have any luck only with Tony Bell at forty per. All the jobs here are eight hours and four dollars a day, and time and a half for over-time, and double time for Sundays and holidays.

Well, I will close, for I have a short circuit in my pencil, and have blown the fuse.

Fraternally yours,

J. E. Simmons.

L. U. NO. 559, BRANTFORD, ONT.

Editor:

Bringing Local Union 559 into the lime light again. I thought you would like to hear from us again. We are having high voltage here at present, as on Wednesday, May 15th we held an open meeting gathering into our fold another three candidates making about seven for this month. The insulation is uncovered and we are making good joints without any short circuits. Our comalougs are in good shape and we intend to dig our spurs in deeper and will not rest until we can show a good majority for the size of Brantford.

We had Mr. Marsh of Niagara Falls give us a talk who is the representative of the Carpenters union. He was very well pleased to know that Brantford was well represented with an electrical union and called us a live wire bunch.

As our officers were not installed at our previous writing, I am glad to state they are now and as follows:

President, W. H. Miller,

Vice President, E. J. Skidmore,

Recording Secretary, N. Chalk,

Financial Secretary, C. E. Kikby,

Treasurer and Press Secy., R. P. Hollnake.

We were sorry that Mr. Ingles of London, Ont., our organizer could not be at our meeting owing to duties calling him to Winnipeg in reference to a strike taking place there and our local wishes him every success in his undertaking.

We had Mr. Bert Brown of the carpenters union and Mr. Gratton of the Trade & Labor Council give us a few well chosen words which were well received by all present.

Hoping these few notes will be of use to some other union and give them encouragement to work hard for our rights.

The duty of Press Secretary is entirely new to me but as time wears on, I hope to be able to give you more of our work.

Yours fraternally,

R. P. Hollinrake, Press Secy.

L. U. NO. 600, ERIE, PA.

Editor:

As Local No. 600 has been on the map for nearly three months, and it is nearly time for our charter to close, I think it's about time you heard something from us and as I had the misfortune to be appointed Press Secretary at our last meeting, I will try to let the Brothers know a little about what we are doing up here.

The two old locals here, No. 30, linemen and No. 56, inside-men are progressing very well. No. 56 is working under a new agreement since April 1st, with their contractors, with a minimum of 75 cents per hour for wiremen, which they procured without any real trouble, but I am getting away from my subject. Local No. 600 was organized March 9th as a shopmen's local. It also includes cranimen and at the present writing we boast of 216 members and have several applicants to yet be obligated. If our present enthusiasm keeps up we will set a pace for some of the older locals. We meet every Wednesday evening in C. L. U. hall at 17th and State Streets. We impose a fine on any member not attending at least one meeting a month.

Following are our present officers.

President—R. Wright.

Vice President—H. Taggart.

Financial Secretary and Treasurer—G. F. McCord.

Recording Secretary—H. Meeks.

Foreman—Galusha.

Inspectors—C. Michel and W. Hassel.

Trustees—C. McLallen, J. Trott and H. Biezdard.

Press Secretary—C. A. Smith.

These officers are the ones originally elected when the charter was granted, with the exception of our former Financial Secretary and Treasurer. G. F. Corp who was drafted less than a month after the forming of our local, succeeded in eluding the regular draft routine however, and is located with the Aviation Corps at Kelly Field. G. F. McCord was elected to fill his place. There have been a few other members drafted from our ranks, to whom of course were given War Service cards.

On May the 2nd we gave a smoker to all the electricians and cranimen in and around Erie, whether card men or not, featuring a boxing match between a couple local boys. This was very well attended and judging from the applications received later, we created a favorable impression on the boys. We charged no admission to outsiders. The expenses being borne by the members of the local.

Although we are a new organization and are not working under any agreements as yet, we have a scale under consideration, and hope to be able to report something definite next month. We are 100 per cent strong in two of the largest shops in town and several smaller ones.

I recently received a letter from Brother S. P. Morgan, Recording Secretary of Lo-

cal No. 220 of Akron, Ohio, of which I was formerly a member, who stated that they only had their trouble there partially fixed up. Here is hoping they can get together with all their contractors in the near future. Their demands are surely reasonable enough. We will see to it that none of our boys consider Akron as a stopping place until this trouble is fixed up.

Work is fairly good here, although men are not as much in demand as they were a couple of months ago. Housing conditions are rather poor here, and undoubtedly will be for some time, owing to the large number of outsiders working here in war industries.

If this succeeds in getting into print you will hear from us again in the next issue of the Journal.

With best wishes for all the boys of the Brotherhood.

I am, fraternally yours,

C. A. Smith, Press Secy.

Local No. 600, Erie, Pa.

L. U. NO. 647, SCHENECTADY, N. Y.

Editor:

Brothers this is to let you know that we are still on the map and doing well. There is no boom on in the Linemen's game here, although every member of 647 is working at present.

Thanks to Brother Organizer, Charles Keaveney. The local has just closed an agreement with the Street Railway Company. Foreman \$4.50 per day; linemen receive \$4.14 per day, 9 hours, store room to store room and the emergency three shifts of eight hours each. Linemen get all holidays off and time and one-half for overtime, double time for holidays.

Yours fraternally,

Pres. G. Granger.

L. U. NO. 666, RICHMOND, VA.

Editor:

We have been receiving communications from various Locals of the I. B. calling our attention to all kinds of International aches, ills and pains and offering remedies in the shape of reduction of per capita, convention calls and others too numerous to mention, most of them ignored as howls from do-nothings and would-be later-day Moses. But quite a few assailed the character and ability of our Int. Officers, now that is a touchy spot with us. While the Int. President, Int. Secretary, and others connected with the I. O., except Organizers, have never accorded us the honor of a visit, nor do we know them other than in an official capacity, we do appreciate the assistance they have unflinchingly extended us, whenever our requests were reasonable, and when I say reasonable I mean not alone in their judgment, but our own cool after-thought.

There is no man or set of men who work at the trade every day for a livelihood, who is capable of viewing the business of the I. B. from a National or International view point. His or their ideas are of necessity restricted to the Local problems, hence the necessity of a central clearing house or I. B. with men to devote their entire time to problems as they assume large proportions or are likely to involve quite a few of our membership. Therefore we have an Int. Brotherhood and Int. Executive Officers. Now if the Int. Officers are allowed to perform their allotted work, properly bounded by the Constitution of the I. B. without being pestered by inconsequential petty grievances of strictly local character and usually of such as can be easily settled by local action, then we would all see the machinery of our I. B. functioning properly. Furthermore we do not allow our Int. Officers discretionary powers consistent with their high office and right there is the

cause for more dissension than any other factor with which they have to contend. We prescribe circles for them to travel around in and then expect every conceivable grievance or other questions of importance to be settled satisfactorily within those bounds, also we expect their work or results of their work rather to be accounted for in dollars and cents or some other form of material measurements, whereas most of their work deals with things of a theoretical nature requiring expenditures of much study as well as money. Things requiring forethought of or an insight of the future to the extent of getting results consistent with a line of action extending into future years. We should not and can not measure our leaders with the same instruments you would use for Corporation Officials, or any other class of men that use material instruments in their work, but must select the very best men available and then with all confidence in them tell them what you want and let them use their own brains in getting them.

It needs no comment from me as to the efficient conduct of the Int. Sec.'s office. Those of us who are in constant touch with his office know that his conduct of office is unassailable by anyone who values courteous treatment and efficient manner of caring for the large amount of correspondence passing through his hands.

I might say the same thing of all of them and drop the matter, but it seems that a series of unjust and uncalled for attacks have been especially directed at our Int. Pres.

It is useless for me to try to enumerate the many things he has done for the Brotherhood, but to those who doubt, why not spend the money used in circularizing, in sending a representative to the I. O. and have him or them to investigate them first hand, instead of listening to the ravings of some unsatisfied individual.

Our Int. Pres. is a man of proven ability and under whose guidance our Brotherhood has made wonderful strides.

"No man can fool all the people all the time," and fourteen years as our Chief (some of those years within which the secession movement was in full blaze, were rather strenuous to say the least) certainly should remove all doubts of ability, sincerity of purpose, or any other standards by which a successful Labor Leader may be judged.

The position of Int. Pres. requires a man, and were the present incumbent not a man he could never have stood the test of fourteen years of such trying service, and this Local Mr. President extends a rising vote of thanks for the unselfish act in reconsidering your resignation, and laying aside your personal aspirations to remain our Chief during these trying times.

Fraternally,

G. M. Miller,

Sec.

L. U. 666, I. B. E. W., Richmond, Va.

L. U. NO. 667, CHARLESTON, W. VA.

Editor:

Again I will let the Brothers know we are still on the job at Nitro, W. Va., "Government Explosive Plant," twelve miles out of Charleston. We are about 45 strong with most working at Nitro. We are in hopes of the 75c per hour, and I believe it is real near. At present we are getting 65 per hour, time and one half for over time, double time for Sundays and holidays. There has been no linemen turned away, all floaters go to work.

Brother Joe Harris is among us with his usual smile and is a welcome Brother. Brothers Edd Sheppard and A. G. Heardsliska has taken a soft birth with us. Would like to shake a hand with R. W. Burley, only not come in this way. Welcome to him and all good Brothers.

I am located at Nitro and will gladly give every dope desired in regards to the Electric Department.

Hoping this will find space in the Journal, I will pull the plug.

Fraternally,

R. H. Bryant,

P. S.

Nitro, W. Va.

L. U. NO. 688, MANSFIELD, OHIO.

Editor:

Just a line from Local No. 688 for the June Worker. Several travelling Brothers have blown in town, and quite a few live ones among them, and old 688 is coming right to the front through the efforts of some of the new ones. We are now holding our meetings every Tuesday night instead of two weeks on Friday. Brother Robert L. Fox blown in with a \$100.00 card from Freeport, Illinois and has taken a Secretaryship and along with the other Brothers and the help of an Organizer which we expect in the near future from the Grand Office, should be able to do some good work and boost this Local to a membership of 200, as we have several big jobs to be pulled off here in the near future, namely the Westinghouse Electric, also the American Clay Machinery Company expect to build a Three Million Dollar job here and will employ in the neighborhood of one hundred electricians, and the Light Company and Telephone Companies need men. With a little organizing the boys here should have no trouble in demanding 75 cents per hour. Local No. 688 has lost several Brothers in the last few days, being Brother Stoner, Blood and Barger, who have been very active in this Local. Blood and Stoner being on the Executive Board, and Barger filling the capacity of President, and believe me any applicant that got by this board was entitled to a Journeyman's card. Brothers Wallace of No. 39, Cleveland, Leslie and Campbell of No. 564, Richmond, Ind., blew into town and all went to work on the Light. Stoner, Blood and Barger have left the city attracted by the money offered elsewhere, and had Detroit on their mind when they left here, each taking their traveler with them. We are taking a few new members in each meeting night, and are holding our membership at about normal, the roster standing at about 45 members, all live ones. The telephone boys have been thinking some of asking for pay-day every week, also thinking of presenting an agreement for a closed shop to the officials of the Mansfield Telephone Company.

Well, I believe I will ring off for this time and give you a short letter for the July Worker.

Yours Fraternally,

R. L. Fox,

Fin. Sec'y.

L. U. NO. 697, LAKE COUNTY, IND.

Editor:

Will make this letter as brief as possible, on account of it being so late.

On the 6th of June at about 8:30 P. M., one of our young members, Bro. F. L. Trucey had his left leg caught in the gears of a crane and it was crushed so badly that it was necessary to amputate the crushed leg at the knee. From all reports he is getting along nicely and is getting all the care that money can buy and will have plenty of visitors as soon as he is able to receive them. As all that know him are his friends. Will state that the Sinclair Oil job at East Chicago, Ind., is unfair to No. 697 and also to Lake County Building Trades. The Contractor refused to pay \$7.00 per 8 hours which is the scale of Lake County. So all wiremen were called off of the job on June the 1st, 1918, and any that work on said

job before these people settle with No. 697 are scabs, rats, skates or anything that is meant and will be dealt with accordingly.

Some of our Brothers are so busy making the "Jack" that they forget the meeting nights. Wake up you "birds" and don't forget Thursday nights. No matter how much you need the "Jack" attend the meetings, as that is where our conditions were made and not working over time.

No doubt this will be my last letter as I am leaving here on or about the 22nd of June. Good luck to all.

Yours fraternally,

Jack Dierheimer,
Press Secretary.

L. U. NO. 724, OTTAWA, CAN.

Editor:

I think the time has arrived when Local No. 724 of Ottawa, Canada, should be heard from, and help use up some of the space in your valuable Journal.

I might first state that Local No. 724 has been in existence only since last July, and I must say that we have come with a vengeance, knowing that we had been

asleep for a good many years.

To make a long story short we got out our war clubs and started after the boys. Some jumped at us with open arms, while others, well we simply had to gas them in order to bring them in and today we are almost one hundred per cent organized.

We claim the distinction of having just closed what I think is the finest agreement ever put through in Canada, and to Organizer Bastien is due the credit of having obtained all that we went after, and it was no small task of obtaining without a strike, increase of wages, closed shops, eight hour day, time and one-half and double time for overtime, arbitration board, and last but not least the use of the union label, which we have the honor of being the first local to use them in this part of the country.

Now Mr. Editor if you can beat that you have got to go some for the traffic cops are still after Bastien for exceeding the speed limit.

Well Mr. Editor for an introduction I think this will be sufficient, and if you can place it in your monthly you will oblige.

Fraternally yours,
R. J. Desjardius, Secy.

CAMP NEWPORT, R. I.

Editor:

Just a few lines from some of the boys who are serving this good old U. S. A. at the present time, stationed at Naval Training Station, Newport. I am enclosing you a photo of some of the worthy Brothers, who are working together here in the Dynamo room, and will kindly ask of you to have copy of same placed in the June issue providing you can find space somewhere in the Worker.

The names are as follows reading from left to right: W. F. Dally, Jr., Local 669, Springfield, O.; O. F. Diller (Pop) Local 697, Hammond, Ind.; F. R. Poffenbaugh, Local No. 8, Toledo, O.; S. P. Barrett (Single Pole), Local 369, Louisville, Ky..

D. F. Mahan (Shanty), No. 258, Providence, R. I. and D. E. Moore (High tension kid) Local No. 20, New York.

We will now follow with what is known as our navy yell:

"We are six fixers, just one-half dozen.
Who are goin' after the Kaiser and goin' a buzzin'.

We'll blow up his mines and U-Boats too,
And march into Berlin before we're through.
So here's to the Brotherhood, long may she reign,

And good luck to you all boys till we see you again."

Fraternally yours,
S. P. Barrett,
Naval Training Station,
Newport, R. I.

Springfield, Illinois, June 11, 1918.

To Whom It May Concern:

This is to certify that we have verified the official ballot in connection with the referendum vote on constitutional amendments of the International Brotherhood of Electrical Workers and certify that the totals given for and against each amendment, are correct, and correspond with the figures appearing on the official return sheets.

CERTIFIED AUDIT COMPANY,
Per J. M. Appel, C. P. A.,
President.

THINGS ELECTRICAL

Electrolytic Work.

Electro-metallurgy has been defined as "the art or science of depositing metals electrolytically, or of separating them from their ores or alloys by electrolysis. Owing to their extreme complexity, however, the process has been little understood or appreciated. Electricity for lighting is familiar to everyone; its use in the transmission and application of power may be seen on every hand, but the progress of the art of electrolysis is seldom touched upon in the outlines of electrical advancement.

The process of covering one metal with another by electro-deposition antedates all other branches of the art, having been first put into practical use in 1847.

For the majority of larger plants devoted wholly or in part to electrolytic work, generators especially built are used. The low voltage required, and the large current demand, introduce difficulties which specially built machines take care of.

Copper Refining.

The industry involving the greatest tonnage and money value is that of copper refining in which pure molecules of copper are separated from the natural iron-copper-silver alloys known as raw copper. Over half the world's production of copper is refined by this process, and in this day of electrical developments the copper produced and required is more than a million tons a year.

Banking Transformers.

When transformers are banked either in parallel or in series it is necessary that their polarity be known. With transformers of the same make it is safe enough to assume that all are of the same polarity and to connect them accordingly. If, however, transformers of different makes are to be run together, they should be tested and marked beforehand. To do this make connections to a D. C. main and use a voltmeter to test. A direct current applied to a transformer will cause one impulse to be given to the voltmeter connected across the secondary leads. On each transformer mark that wire of the primary which goes a certain deflection on the voltmeter and in banking these transformers, see that these marked wires all connect to the same primary wire for parallel working. For this test a voltmeter whose deflections depend upon the direction of current must be chosen.

Accumulators or Storage Batteries.

Storage batteries are used in connection with isolated or central stations to supply current when the dynamos are not running, as well as at the hours of heaviest load when perhaps the capacity of

the dynamos may not be fully equal to the demands made upon them.

It must be borne in mind that it is not customary to provide dynamo capacity for all of the lights and power connected to the system, the assumption being that seldom more than 25 to 50 per cent of the connected load will be used at any one time. If a suitable storage battery is connected to the system, the dynamo capacity may be less for the battery can be charged during the slack hours when but very little current is being used for other purposes. Thus if properly arranged, the dynamos and engines can be kept working at their full capacity and highest efficiency most of the time.

Ground Detectors and Lightning Arresters.

As a rule all systems of wiring should be kept free from grounds. The exceptions to this rule are three-wire systems of such magnitude that it becomes practically impossible to do so, and in such cases the neutral is permanently grounded.

In some cases it may be advisable to install ground detectors that give continuous indications, but as such indicators introduce a permanent ground which under favorable circumstances becomes an aid in breaking down the insulation of the opposite polarity from the one to which it is attached, this is not generally desirable.

The purpose of the ground detector is to give a warning when the first break in insulation occurs, thereby giving time to repair it before the second one, with its possible accompanying fire, can follow. The instant a detector shows a ground, steps should be taken to find and remedy it. By throwing off one circuit after another, the one on which the ground exists will soon be found. Inspection along this circuit will generally disclose the trouble. Where the circuits are not well sub-divided by switches, fuses may be removed to accomplish the same result.

Induction Voltage Regulators.

In modern generating and distributing stations, constant voltage is usually maintained at the bus, and an automatically operated induction voltage regulator is installed in each feeder to compensate for its voltage drop due to varying loads, and to maintain a constant potential at its center of distribution. Such regulators are generally installed in the station from which the feeder comes from, but conditions occur which require the installation of the regulator at or near the center of distribution.

A regulator has been developed suitable

for out door service which has demonstrated its reliability under severe conditions.

This type of regulator can be used advantageously for regulating the voltage of a feeder taken from a transmission or power system and supplying a small village or community. The voltage across the transmission line varies along the line and according to the main load and the most satisfactory method of insuring a constant voltage across the branch feeder is the installation of an automatically-operated regulator, connected in that feeder and controlling the voltage of its load. The same conditions prevail on a long feeder from which power is taken at a number of points along its length.

Adjustable Speed Motors.

Wherever the speed of machinery must frequently be altered the advantages of an adjustable speed motor are conspicuous. Adjustable speed electric drive first proved its great value in its application to machine tools, but since that time it has been extensively introduced, with most excellent results, into laundries, printing shops and many other industrial establishments.

Polyphase Watt-hour Meters.

Fundamentally, the metering of a polyphase circuit involves the use of two single phase meters suitably arranged, connected and housed in one case. Therefore, in design and selection, polyphase meters are not far different from the single phase meter.

It is not always a very simple or convenient matter to remove a large meter from a circuit or to introduce testing instruments without interrupting the service. For this reason a very useful and effective scheme has been worked out for testing large meters at the installation. By means of jumpers which go with the meter, a test of the meter can be quickly made. When the test is completed the jumpers can be fastened in place and meter service continued immediately.

Aluminum Lightning Arresters.

The important features in electrolytic lightning arresters are:

1. Oil as a heat absorbing and insulating medium.
2. Insulating barriers between cone stacks and tank.
3. Iron pipe work throughout for horn gap structure.
5. Charging resistance.
6. Transfer switch for interchanging cone stacks for charging.
7. Handwheel for operating transfer switch.
8. Steel tanks.
9. Rim separators for cones.
10. Grounded elliptical tank on very high voltages.
11. Sphere—horn gaps.

The aluminum type of lightning arrester is superior in protective qualities to any other. It owes these qualities to the valve action of the aluminum cell which has the property of opposing the flow of current, like a high resistance, at normal operating voltage, and of allowing a free flow at abnormal voltages due to lightning or similar disturbances. A close analogy to this action is found in the safety valve of the steam boiler, by which steam is confined until the pressure rises above a certain valve, when it is released.

The opening of the aluminum "safety valve" quickly relieves the excess potentials as the discharge is then limited only by the internal resistance of the cells, which is very low. When the potential has been reduced to normal, the cell "valve" closes again, offering a high resistance to the flow of current. The condenser action of the stack of aluminum cells also contributes to the protective value of the arresters as it is effective in the discharge of high frequency currents.

The Drying and Filtering of Transformer Oil.

Central stations and other large users of transformers, oil circuit breakers, electrolytic arresters and feeder regulators are becoming more and more convinced of the necessity for making periodical inspection and tests of insulating oil and purifying oil that has absorbed moisture or sediment. Where this practice has been systematically followed it has been found that failure of apparatus and devices from burn-outs, with consequent interruptions of service, has been reduced to a minimum.

Until the development of the filter press using blotting paper, no method of maintaining maximum dielectric strength and purity of insulating oils was ever approximately satisfactory.

The ideal method for freeing oil from moisture, slime and sediment is by forcing under pressure through several layers of dry blotting paper in a specially designed filter press.

This paper is free from chemicals, foreign substances and coloring matter, and is furnished cut to exact size to fit the filter. The solid matter in the oil is caught by the paper, while the water is retained by capillary attraction. The capillary attraction between the paper and the water is greater than that between the paper and the oil and the effectiveness of the method is mainly due to this fact.

One treatment is generally sufficient to produce a dielectric strength of 28,000 volts, corresponding to a water content of only one part in about 250,000. A purity greater than that is of no practical benefit, as it cannot be maintained with oil in regular use.

Why American Labor is Back of the War

By GEORGE W. PERKINS

President of the Cigar Makers' International Union

Why is American organized labor so unanimously supporting the Government in its war to a finish against autocracy?

If all of you who read this article had been with me in Germany the year before the great war broke out you would have no need to ask. You would have seen, as I saw, autocracy at work, intimidating and coercing labor, spying on it, policing its meetings, suppressing free speech. When all these methods failed, you would have seen as I saw, autocracy trying to corrupt labor, misleading it by insidious propaganda, seeking to raise up false leaders, and using the power of money and influence to debauch those who seek to mitigate the condition of the workers.

You would have returned, as I did, thankful to be permitted to live in a land of freedom and democracy, and resolved, as I was, if ever our liberties were menaced by the powers of autocracy, to fight to the death; to work to the limit; to make every sacrifice, and to accept no compromise until autocracy, such as is typified by the present German government, is defeated in a finish fight and the militarism which keeps it in power is crushed forever from the face of the earth.

I went to Europe in the early fall of 1913 as representative of the American Federation of Labor to the World's Congress—the International Federation of Trade Unions, at Zurich, Switzerland. Like the representatives of the organized labor movements of the other nations, I went as a poor man, resolved to make the trip just as cheaply as possible, because labor has no money to spend on the junketings of its representatives. I went there for work, not for pleasure.

But Switzerland is on the borders of Germany. Zurich was filled with supposed leaders of the labor movement of Germany. They were not delegates, but, somehow, they were there. They were not poor men, if the way they spent money was any indication. They seemed to have unlimited funds.

Their mission seemed to be to spend money. We have always supposed that the "Dutch treat" originated in Germany, but somehow these men from Germany seemed never to have heard of it. Their sole aim, apparently, was to wine and dine the representatives of other countries. They would invite a man to luncheon or dinner, on the pretext that they wished to consult him on some important matter. He would find, as I found more than once, that the matter would be just about as important as the question of whether adjournment should be taken at 12 o'clock as five minutes to 12. In fact it often would be hard to discern any matter at all which would warrant this sudden manifestation of friendship and interest.

But the conversation always drifted around to the interests of Germany in the world, its superiority, and the utter futility of anyone standing out against it. The aim, apparently, was to make friends for Germany. It took the world war, however, to reveal the full meaning and extent of what these propagandists were driving at.

When it came to paying the check some of these Germans were there with bells on. I don't know where they got the money. Just go and look in on the headquarters of some of the German unions, or visit the homes of some of the German

workers and see if you think they got the money there.

For years before this war broke the dream of sentimental internationalists of the world had been to prevent international strife by general strikes in case of wars of conquest. At a meeting several years ago of the miners' representatives from many lands, an English delegate proposed a resolution providing that in the event of a war of aggression the miners of both countries involved should refuse to dig coal. The German delegation said that if such a resolution was even introduced they would have to withdraw, for if they even sat in a meeting in which such a resolution was discussed they would be tried and executed for treason.

The same thing has happened on other occasions. The German delegations always knew they would have to refuse to have anything to do with any proposal to interfere with their government's plans for world conquest, or face a firing squad.

My personal experience while studying the labor movement in Germany was such as to make me more than ever absolutely and unqualifiedly back of our government in this war. I found absolutely no democracy in the German labor movement. No meeting of working men could be held in Germany without government police supervision. No one could speak in a foreign tongue at any labor meeting, without first submitting his speech to the autocratic government, having it censored, and being given a permit to make the address.

I could not speak at a meeting of cigar-makers called for organization purposes because I would first have had to submit

in writing a copy of my speech. This would have had to be translated into German, blue penciled by some representative of an autocratic government, and translated back into English for the Kaiser's minion to tell me what I could say. Before all this red tape could have been gone through with, the day for the meeting would have passed, if I had consented to try to go through with it at all.

For years, in Germany, formation of labor unions was absolutely prohibited. Workers had to meet secretly, and in imminent peril of arrest. When the German government finally saw the workers could not be intimidated in this way, it grudgingly granted permission to organize, but under so many restrictions that any true expression of labor's aims and desires was impossible.

Our forebears disputed the demands of kings and potentates. Rebelling against religious intolerance and social injustice they started our first great war. It was successful.

The second great crisis of our nation brought on the war for the elimination of human slavery. It, too, was successful.

Now we are at an even greater crisis. We are fighting that democracy, liberty and justice shall not perish from the earth. Again we must and we will be successful.

The time for argument is past. The pacifist's cowardly pleas are dead. You must now either be pro-American or pro-German; pro-democracy or pro-autocracy. There can be no falling back; no wavering. All of us must be heart and soul for democracy and victory, or for autocracy, militarism and slavish subjection.

The Misener Rotary Metal Saw

Manufactured under Patents Pending by Misener & Irving Mfg. Co., Inc., Successors to M. S. Specialties, Ltd., Syracuse, N. Y.

Brothers:—Have you seen or used the Misener Rotary Hack Saw yet? If not you are still doing this work in the same old way. Show this to your "BOSS." Let him know you are progressive enough to cooperate with him and show him. Insist on him getting one of the labor savers to put in your "Kit," and see how quick he will do it as they are guaranteed to save 75% of the time

Center Rotary

Outer Rotary

it now takes to cut those holes in your Panels and for setting outlet boxes in wood Plastered and Tile partitions. Order from your jobber or direct from us. By the adoption of the Oscillating shank, it is possible to use a "wobbly" chuck (one that is sprung or bent) and still get 100% efficiency. Center rotary cuts pipe sizes ¾", 1", 1¼", 1½".

Outer rotary is quickly and securely fastened by an interlocking arrangement and cuts pipe sizes 2", 2½", 3", 3½", 4". Each Misener Tool is furnished with a complete set of saws ½" deep.

Complete Misener Tool..... \$9.00

Center Rotary with oscillating bit shank (Separate)..... 6.00

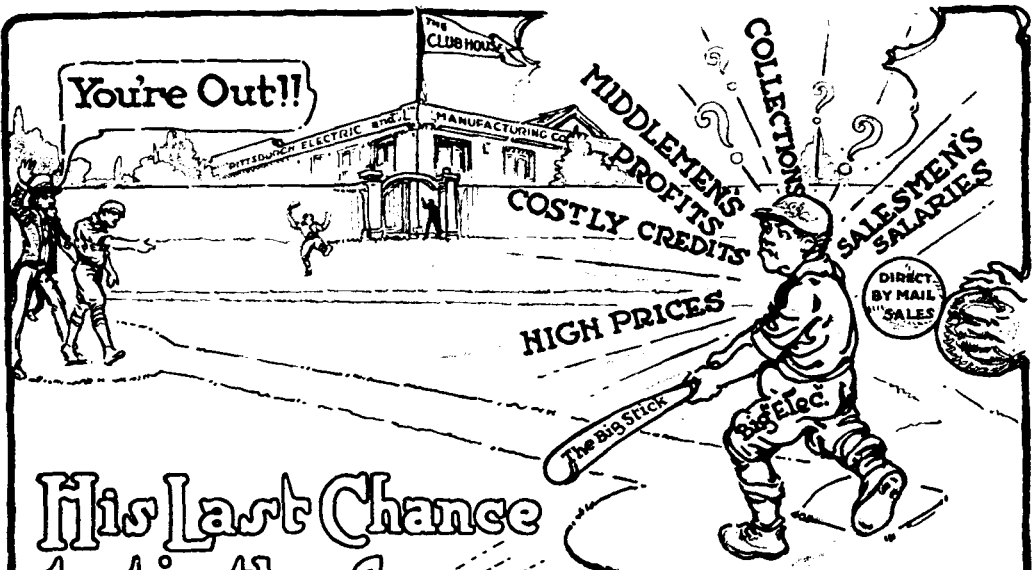

Outer Rotary (Separate)..... 4.00

Machine Shop Tapered Shanks, ordered separate..... 1.50

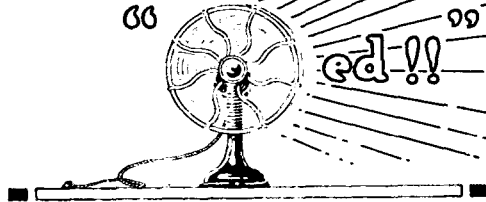

Our recommendation is that Misener Tools be bought complete, though for convenience in repeat orders we price them in various parts.

Misener Saw Blades are of the highest grade, rolled to proper size and temper. When ordering please do so by pipe size.

BARNES & IRVING, Inc., Syracuse, N. Y., U. S. Sole Distributors

His Last Chance
to tie the Score
and he

"BIG ELEC"

Is now slated
for the bushes—
his natural haunt.

He has been fanning at
our shine balls now for five years, and his batting
average is down to zero. The "Ump" now calls
him out regularly on three pitches—

Selling by mail—

**No charge accounts—
and Sensible overhead.**

The next scout looking for real ivory will surely get
"ELEC"
